	Page
Foreword .....	v
<b>0 Introduction .....</b>	<b>vii</b>
<b>1 Scope .....</b>	<b>1</b>
<b>2 Normative references .....</b>	<b>1</b>
<b>3 Terms and definitions .....</b>	<b>1</b>
<b>4 General principles .....</b>	<b>4</b>
4.1 General requirements for statistical methods .....	4
4.2 Basic model .....	5
4.3 General approaches for the evaluation of performance .....	5
<b>5 Guidelines for the statistical design of proficiency testing schemes .....</b>	<b>6</b>
5.1 Introduction to the statistical design of proficiency testing schemes .....	6
5.2 Basis of a statistical design .....	6
5.3 Considerations for the statistical distribution of results .....	7
5.4 Considerations for small numbers of participants .....	8
5.5 Guidelines for choosing the reporting format .....	8
<b>6 Guidelines for the initial review of proficiency testing items and results .....</b>	<b>10</b>
6.1 Homogeneity and stability of proficiency test items .....	10
6.2 Considerations for different measurement methods .....	11
6.3 Blunder removal .....	11
6.4 Visual review of data .....	11
6.5 Robust statistical methods .....	12
6.6 Outlier techniques for individual results .....	12
<b>7 Determination of the assigned value and its standard uncertainty .....</b>	<b>13</b>
7.1 Choice of method of determining the assigned value .....	13
7.2 Determining the uncertainty of the assigned value .....	14
7.3 Formulation .....	15
7.4 Certified reference material .....	15
7.5 Results from one laboratory .....	16
7.6 Consensus value from expert laboratories .....	17
7.7 Consensus value from participant results .....	18
7.8 Comparison of the assigned value with an independent reference value .....	19
<b>8 Determination of criteria for evaluation of performance .....</b>	<b>20</b>
8.1 Approaches for determining evaluation criteria .....	20
8.2 By perception of experts .....	20
8.3 By experience from previous rounds of a proficiency testing scheme .....	20
8.4 By use of a general model .....	21
8.5 Using the repeatability and reproducibility standard deviations from a previous collaborative study of precision of a measurement method .....	22
8.6 From data obtained in the same round of a proficiency testing scheme .....	22
8.7 Monitoring interlaboratory agreement .....	23
<b>9 Calculation of performance statistics .....</b>	<b>23</b>
9.1 General considerations for determining performance .....	23
9.2 Limiting the uncertainty of the assigned value .....	24
9.3 Estimates of deviation (measurement error) .....	25
9.4 $z$ scores .....	26
9.5 $z'$ scores .....	27
9.6 Zeta scores ( $\zeta$ ) .....	28
9.7 $E_n$ scores .....	29
9.8 Evaluation of participant uncertainties in testing .....	29
9.9 Combined performance scores .....	30
