National Foreword

This European Standard EN 171:2002 was adopted as Luxembourgish Standard ILNAS-EN 171:2002.

Every interested party, which is member of an organization based in Luxembourg, can participate for FREE in the development of Luxembourgish (ILNAS), European (CEN, CENELEC) and International (ISO, IEC) standards:

- Participate in the design of standards
- Foresee future developments
- Participate in technical committee meetings

This European Standard was approved by CEN on 20 January 2002.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Malta, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword	3
1 Scope	4
2 Normative references	4
3 Terms and definitions.....	4
4 Designation and identification.....	4
5 Requirements	4
5.1 General.....	4
5.2 Transmittance requirements.....	5
5.3 Oculars with enhanced colour recognition (optional)	5
5.4 Oculars with enhanced reflectance in the infrared (optional).....	6
Annex A (normative) Relative visual attenuation quotient for signal light recognition.....	7
A.1 Definition of relative visual attenuation quotient for signal light recognition.....	7
A.2 Spectral functions for the calculation of luminous transmittance and relative visual attenuation quotients	8
Annex B (informative) Guidance on selection and use	9
B.1 General.....	9
B.2 Filters with enhanced colour recognition	9
B.3 Filters with enhanced reflectance in the infrared.....	9
Annex C (informative) Uncertainty of measurement and results interpretation.....	10
C.1 Test report and uncertainty of measurement	10
Annex ZA (informative) Clauses of this European Standard addressing essential requirements or other provisions of EU Directives	12

Foreword

This document (EN 171:2002) has been prepared by Technical Committee CEN/TC 85 "Eye-protective equipment", the secretariat of which is held by AFNOR.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by September 2002, and conflicting national standards shall be withdrawn at the latest by September 2002.

This document supersedes EN 171:1992.

This document has been prepared under a mandate given to CEN by the European Commission and the European Free Trade Association, and supports essential requirements of EU Directive(s).

For relationship with EU Directive(s), see informative annex ZA, which is an integral part of this document.

In this standard the annex A is normative and the annexes B and C are informative.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Malta, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.
