## National Foreword

This European Standard EN 17087:2019 was adopted as Luxembourgish Standard ILNAS-EN 17087:2019.

Every interested party, which is member of an organization based in Luxembourg, can participate for FREE in the development of Luxembourgish (ILNAS), European (CEN, CENELEC) and International (ISO, IEC) standards:

- Participate in the design of standards
- Foresee future developments
- Participate in technical committee meetings

essais d'émission et d'analyse du contenu

Bauprodukte: Bewertung der Freisetzung von  
gefährlichen Stoffen - Herstellung von Prüfmengen aus  
der Laborprobe zur Prüfung der Freisetzung und zur  
Gehaltsanalyse

This European Standard was approved by CEN on 19 November 2018.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, Former Yugoslav Republic of Macedonia, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and United Kingdom.

<b>A.6</b>	<b>Storage .....</b>	<b>27</b>
<b>Annex B (informative)</b>	<b>Relationship between minimum amount of (sub-)sample and particle size .....</b>	<b>28</b>
<b>B.1</b>	<b>Equation for the estimation of the minimum amount of (sub-)sample.....</b>	<b>28</b>
<b>B.1.1</b>	<b>General.....</b>	<b>28</b>
<b>B.1.2</b>	<b>Example: determining the fraction of particles with the property of interest .....</b>	<b>28</b>
<b>B.1.3</b>	<b>Example: estimating the minimum amount of sample .....</b>	<b>29</b>

<b>B.2 Empirical rule .....</b>	<b>29</b>
<b>Annex C (informative) Sample treatment equipment .....</b>	<b>31</b>
<b>Annex D (informative) Examples of analytical methods for content and leaching.....</b>	<b>32</b>
<b>Annex E (informative) Examples of preparation of test samples.....</b>	<b>34</b>
<b>E.1 Example 1: Dry matter content, leaching and analysis for pH, Cr, Cu, Mo and Zn .....</b>	<b>34</b>
<b>E.1.1 General .....</b>	<b>34</b>
<b>E.1.2 Choice of methods and specification of amount and characteristics of test portions .....</b>	<b>34</b>
<b>E.1.3 Specification of amount and characteristics of the different test samples.....</b>	<b>37</b>
<b>E.2 Example 2: Dry matter content, TOC, loss on ignition, Cd, Hg, Pb, PCB, leaching and analysis for pH, conductivity, Cd, Hg, Pb, Cl, sulphate and TOC .....</b>	<b>38</b>
<b>E.2.1 General .....</b>	<b>38</b>
<b>E.2.2 Choice of methods and specification of amount and characteristics of test portions .....</b>	<b>38</b>
<b>E.2.3 Specification of amount and characteristics of the different test samples.....</b>	<b>39</b>
<b>E.2.4 Define the sequence of operations .....</b>	<b>40</b>
<b>Bibliography .....</b>	<b>45</b>

## European foreword

This document (EN 17087:2019) has been prepared by Technical Committee CEN/TC 351 “Construction products: assessment of release of dangerous substances”, the secretariat of which is held by NEN.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by August 2019, and conflicting national standards shall be withdrawn at the latest by August 2019.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CEN shall not be held responsible for identifying any or all such patent rights.

This document has been prepared under a standardization request given to CEN by the European Commission and the European Free Trade Association.

According to the CEN-CENELEC Internal Regulations, the national standards organisations of the following countries are bound to implement this European Standard: Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, Former Yugoslav Republic of Macedonia, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and the United Kingdom.
