

TECHNICAL REPORT

CEN ISO/TR 16401-1

RAPPORT TECHNIQUE

TECHNISCHER BERICHT

February 2018

ICS 03.220.20; 35.240.60

Supersedes CEN ISO/TS 16401-1:2012

English Version

**Electronic fee collection - Evaluation of equipment for
conformity to ISO/TS 17575-2 - Part 1: Test suite structure
and test purposes (ISO/TR 16401-1:2018)**

Perception du télépéage - Évaluation de conformité de
l'équipement à l'ISO/TS 17575-2 - Partie 1: Structure
de la suite d'essais et objectifs d'essai (ISO/TR 16401-
1:2018)

Elektronische Gebührenerhebung -
Konformitätsevaluierung von Einrichtungen nach
ISO/TS 17575-2 - Teil 1: Struktur und Zweck des
Prüfprogrammes (ISO/TR 16401-1:2018)

This Technical Report was approved by CEN on 14 January 2018. It has been drawn up by the Technical Committee CEN/TC 278.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, Former Yugoslav Republic of Macedonia, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and United Kingdom.

European Foreword

This document (CEN ISO/TR 16401-1:2018) has been prepared by Technical Committee ISO/TC 204 "Intelligent transport systems" in collaboration with Technical Committee CEN/TC 278 "Intelligent transport systems" the secretariat of which is held by NEN.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CEN shall not be held responsible for identifying any or all such patent rights.

This document supersedes CEN ISO/TS 16401-1:2012.

This document has been prepared under a mandate given to CEN by the European Commission and the European Free Trade Association.

Endorsement notice

The text of ISO/TR 16401-1:2018 has been approved by CEN as CEN ISO/TR 16401-1:2018 without any modification.

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

The procedures used to develop this document and those intended for its further maintenance are described in the ISO/IEC Directives, Part 1. In particular, the different approval criteria needed for the different types of ISO documents should be noted. This document was drafted in accordance with the editorial rules of the ISO/IEC Directives, Part 2 (see www.iso.org/directives).

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. ISO shall not be held responsible for identifying any or all such patent rights. Details of any patent rights identified during the development of the document will be in the Introduction and/or on the ISO list of patent declarations received (see www.iso.org/patents).

Any trade name used in this document is information given for the convenience of users and does not constitute an endorsement.

For an explanation on the voluntary nature of standards, the meaning of ISO specific terms and expressions related to conformity assessment, as well as information about ISO's adherence to the World Trade Organization (WTO) principles in the Technical Barriers to Trade (TBT), see the following URL: www.iso.org/iso/foreword.html.

This document was prepared by Technical Committee ISO/TC 204, *Intelligent transport systems*.

This edition of ISO/TR 16401-1 cancels and replaces ISO/TS 16401-1:2012, which has been technically revised.

The main changes compared to the previous edition are as follows:

- the document has been converted from a Technical Specification to a Technical Report;
- the terms and definitions have been revised;
- the test purpose naming convention has been changed, i.e. "/" has been replaced by "_";
- editorial corrections, as well as changes to improve readability have been made.

A list of all parts in the ISO/TR 16401 series can be found on the ISO website.
