## National Foreword

This European Standard EN IEC 62321-3-4:2023 was adopted as Luxembourgish Standard ILNAS-EN IEC 62321-3-4:2023.

Every interested party, which is member of an organization based in Luxembourg, can participate for FREE in the development of Luxembourgish (ILNAS), European (CEN, CENELEC) and International (ISO, IEC) standards:

- Participate in the design of standards
- Foresee future developments
- Participate in technical committee meetings

English Version

**Determination of certain substances in electrotechnical products  
- Part 3-4: Screening - Phthalates in polymers of electrotechnical  
products by high performance liquid chromatography with  
ultraviolet detector (HPLC-UV), thin layer chromatography (TLC)  
and thermal desorption mass spectrometry (TD-MS)  
(IEC 62321-3-4:2023)**

Détermination de certaines substances dans les produits électrotechniques - Partie 3-4: Détection - Phtalates dans les polymères des produits électrotechniques par chromatographie en phase liquide à haute performance avec détecteur d'ultraviolets (HPLC-UV), par chromatographie sur couche mince (CCM) et par spectrométrie de masse par désorption thermique (TD-MS) (IEC 62321-3-4:2023)

Verfahren zur Bestimmung von bestimmten Substanzen in Produkten der Elektrotechnik - Teil 3-4: Screening von Phthalaten in Polymeren von Produkten der Elektrotechnik durch Hochleistungs-Flüssigkeitschromatographie mit Ultraviolett-detektor (HPLC-UV), Dünnschichtchromatographie (TLC) und Thermodesorptions-Massenspektroskopie (TD-MS) (IEC 62321-3-4:2023)

This European Standard was approved by CENELEC on 2023-06-07. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Bulgaria, Croatia, Cyprus, the Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, the Netherlands, Norway, Poland, Portugal, Republic of North Macedonia, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Türkiye and the United Kingdom.

## European foreword

The text of document 111/695/FDIS, future edition 1 of IEC 62321-3-4, prepared by IEC/TC 111 "Environmental standardization for electrical and electronic products and systems" was submitted to the IEC-CENELEC parallel vote and approved by CENELEC as EN IEC 62321-3-4:2023.

The following dates are fixed:

- latest date by which the document has to be implemented at national level by publication of an identical national standard or by endorsement (dop) 2024-03-07
- latest date by which the national standards conflicting with the document have to be withdrawn (dow) 2026-06-07

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CENELEC shall not be held responsible for identifying any or all such patent rights.

Any feedback and questions on this document should be directed to the users' national committee. A complete listing of these bodies can be found on the CENELEC website.

### Endorsement notice

The text of the International Standard IEC 62321-3-4:2023 was approved by CENELEC as a European Standard without any modification.

In the official version, for Bibliography, the following notes have to be added for the standard indicated:

IEC 62321-8:2017 NOTE Approved as EN 62321-8:2017 (not modified)

IEC 62321-6:2015 NOTE Approved as EN 62321-6:2015 (not modified)

ISO 3696 NOTE Approved as EN ISO 3696

ISO/IEC 17025 NOTE Approved as EN ISO/IEC 17025

## Annex A (normative)

### Normative references to international publications with their corresponding European publications

The following documents are referred to in the text in such a way that some or all of their content constitutes requirements of this document. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.

NOTE 1 Where an International Publication has been modified by common modifications, indicated by (mod), the relevant EN/HD applies.

NOTE 2 Up-to-date information on the latest versions of the European Standards listed in this annex is available here: [www.cencenelec.eu](http://www.cencenelec.eu).
