## National Foreword

This European Standard EN 485-3:2003 was adopted as Luxembourgish Standard ILNAS-EN 485-3:2003.

Every interested party, which is member of an organization based in Luxembourg, can participate for FREE in the development of Luxembourgish (ILNAS), European (CEN, CENELEC) and International (ISO, IEC) standards:

- Participate in the design of standards
- Foresee future developments
- Participate in technical committee meetings

## Aluminium and aluminium alloys - Sheet, strip and plate - Part 3: Tolerances on dimensions and form for hot-rolled products

Aluminium et alliages d'aluminium - Tôles, bandes et tôles  
épaisses - Partie 3: Tolérances de dimensions et de forme  
des produits laminés à chaud

Aluminium und Aluminiumlegierungen - Bänder, Bleche  
und Platten - Teil 3: Grenzabmaße und Formtoleranzen für  
warmgewalzte Erzeugnisse

This European Standard was approved by CEN on 21 November 2002.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Luxembourg, Malta, Netherlands, Norway, Portugal, Slovakia, Spain, Sweden, Switzerland and United Kingdom.

## Foreword

This document (EN 485-3:2003) has been prepared by Technical Committee CEN/TC 132 "Aluminium and aluminium alloys", the secretariat of which is held by AFNOR.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by September 2003, and conflicting national standards shall be withdrawn at the latest by September 2003.

This document supersedes EN 485-3:1993.

This standard is part of a set of four standards. The other standards deal with:

- *Part 1: Technical conditions for inspection and delivery*
- *Part 2: Mechanical properties*
- *Part 4: Tolerances on dimensions and form for cold-rolled products*

Besides very slight editorial adjustments in the text, the following technical changes have been made:

- Table 1 :
 

100 mm to 150 mm :	slightly tighter tolerances
150 mm to 220 mm :	new
220 mm to 350 mm :	new
350 mm to 400 mm :	new

New sentence on cold-compressed plate added after the table.

- Table 3 :
 

0 mm to 6 mm :	slightly tighter tolerances (1 <sup>st</sup> and 4 <sup>th</sup> columns)
6 mm to 12 mm :	tighter tolerances (2 <sup>nd</sup> , 3 <sup>rd</sup> and 4 <sup>th</sup> columns)
12 mm to 50 mm :	tighter tolerances for all products
50 mm to 200 mm :	tighter tolerances for all products
200 mm to 400 mm :	new

Last column added (length over 3 000 mm up to and including 6 000 mm), new sentence after the table (width 6 500 mm to 15 000 mm).

New sentence on cold-compressed plate added after the table.

- Table 5 :
 

50 mm to 350 mm :	extension of 50 mm to 200 mm values up to 350 mm
-------------------	--

New sentence on cold-compressed and unstretched plate added after the table.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Luxembourg, Malta, Netherlands, Norway, Portugal, Slovakia, Spain, Sweden, Switzerland and the United Kingdom.
