About the IEC

The International Electrotechnical Commission (IEC) is the leading global organization that prepares and publishes International Standards for all electrical, electronic and related technologies.

About IEC publications

The technical content of IEC publications is kept under constant review by the IEC. Please make sure that you have the latest edition, a corrigenda or an amendment might have been published.

IEC Catalogue - webstore.iec.ch/catalogue

The stand-alone application for consulting the entire bibliographical information on IEC International Standards, Technical Specifications, Technical Reports and other documents. Available for PC, Mac OS, Android Tablets and iPad.

IEC publications search - www.iec.ch/searchpub

The advanced search enables to find IEC publications by a variety of criteria (reference number, text, technical committee,...). It also gives information on projects, replaced and withdrawn publications.

IEC Just Published - webstore.iec.ch/justpublished

Stay up to date on all new IEC publications. Just Published details all new publications released. Available online and also once a month by email.

Electropedia - www.electropedia.org

The world's leading online dictionary of electronic and electrical terms containing more than 30 000 terms and definitions in English and French, with equivalent terms in 15 additional languages. Also known as the International Electrotechnical Vocabulary (IEV) online.

IEC Glossary - std.iec.ch/glossary

More than 60 000 electrotechnical terminology entries in English and French extracted from the Terms and Definitions clause of IEC publications issued since 2002. Some entries have been collected from earlier publications of IEC TC 37, 77, 86 and CISPR.

IEC Customer Service Centre - webstore.iec.ch/csc

If you wish to give us your feedback on this publication or need further assistance, please contact the Customer Service Centre: csc@iec.ch.

A propos de l'IEC

La Commission Electrotechnique Internationale (IEC) est la première organisation mondiale qui élabore et publie des Normes internationales pour tout ce qui a trait à l'électricité, à l'électronique et aux technologies apparentées.

A propos des publications IEC

Le contenu technique des publications IEC est constamment revu. Veuillez vous assurer que vous possédez l'édition la plus récente, un corrigendum ou amendement peut avoir été publié.

Catalogue IEC - webstore.iec.ch/catalogue

Application autonome pour consulter tous les renseignements bibliographiques sur les Normes internationales, Spécifications techniques, Rapports techniques et autres documents de l'IEC. Disponible pour PC, Mac OS, tablettes Android et iPad.

Recherche de publications IEC - www.iec.ch/searchpub

La recherche avancée permet de trouver des publications IEC en utilisant différents critères (numéro de référence, texte, comité d'études,...). Elle donne aussi des informations sur les projets et les publications remplacées ou retirées.

IEC Just Published - webstore.iec.ch/justpublished

Restez informé sur les nouvelles publications IEC. Just Published détaille les nouvelles publications parues. Disponible en ligne et aussi une fois par mois par email.

Electropedia - www.electropedia.org

Le premier dictionnaire en ligne de termes électroniques et électriques. Il contient plus de 30 000 termes et définitions en anglais et en français, ainsi que les termes équivalents dans 15 langues additionnelles. Egalement appelé Vocabulaire Electrotechnique International (IEV) en ligne.

Glossaire IEC - std.iec.ch/glossary

Plus de 60 000 entrées terminologiques électrotechniques, en anglais et en français, extraites des articles Termes et Définitions des publications IEC parues depuis 2002. Plus certaines entrées antérieures extraites des publications des CE 37, 77, 86 et CISPR de l'IEC.

Service Clients - webstore.iec.ch/csc

CONTENTS

FOREWORD.....	6
INTRODUCTION.....	8
1 Scope.....	12
2 Normative references	12
3 Terms, definitions and abbreviated terms	12
3.1 Terms and definitions.....	12
3.2 Abbreviated terms.....	18
4 General	18
5 Mapping to CP16/1 (SERCOS I) and CP16/2 (SERCOS II)	19
5.1 Reference to communication standards.....	19
5.2 Overview.....	19
5.3 Physical layer and topology	21
5.4 Synchronization mechanism.....	22
5.4.1 General	22
5.4.2 Handling of command and feedback values	23
5.4.3 Position loop with fine interpolator	24
5.5 Telegram contents	25
5.5.1 General	25
5.5.2 Data block	26
5.5.3 Communication function group telegrams	26
5.5.4 Standard telegrams	27
5.5.5 Application telegrams	29
5.6 Non-cyclic data transfer	30
5.7 Real-time bits.....	30
5.7.1 Functions of real time bits.....	30
5.7.2 Allocation of real-time bits	32
5.7.3 Possible cases	32
5.8 Signal control word and signal status word	35
5.9 Data container	36
5.10 Drive shutdown functions	38
5.11 Communication classes	39
5.11.1 General	39
5.11.2 Communication class A	40
5.11.3 Communication class B (Extended functions)	42
5.11.4 Communication class C (Additional functions).....	43
5.11.5 Communication cycle time granularity.....	44
6 Mapping to CP16/3 (SERCOS III)	44
6.1 Reference to communication standards.....	44
6.2 Overview.....	45
6.3 Physical layer and topology	46
6.4 Synchronization mechanism and telegram content.....	47
6.5 Non-cyclic data transfer	47
6.6 Communication cycles	48
6.7 Drive classes	48
6.7.1 General	48
6.7.2 Torque axis	49

6.7.3	Velocity axis	50
6.7.4	Velocity axis with position feedback	51
6.7.5	Position axis	53
6.7.6	Positioning axis	55
7	Mapping to EtherCAT	57
7.1	Reference to communication standards	57
7.2	Overview	57
7.3	SoE synchronization	58
7.3.1	General	58
7.3.2	CP16 Phase 0-2	59
7.3.3	CP16 Phase 3-4	59
7.4	SoE Application Layer Management	59
7.4.1	EtherCAT State Machine and IEC 61784 CPF 16 State Machine	59
7.4.2	Multiple drives	60
7.4.3	IDN usage	60
7.5	SoE Process Data Mapping	61
7.6	SoE Service Channel Services	64
7.6.1	Overview	64
7.6.2	SSC Read	64
7.6.3	SSC Write	68
7.6.4	SSC Procedure Commands	72
7.6.5	SSC Slave Info	75
7.7	SoE Coding general	76
7.8	SoE Protocol Data Unit Coding	78
7.8.1	SSC Read	78
7.8.2	SSC Write	82
7.8.3	Notify SSC Command Execution request	87
7.8.4	SSC Slave Info	88

INTERNATIONAL ELECTROTECHNICAL COMMISSION

ADJUSTABLE SPEED ELECTRICAL POWER DRIVE SYSTEMS –

Part 7-304: Generic interface and use of profiles for power drive systems – Mapping of profile type 4 to network technologies

FOREWORD

- 1) The International Electrotechnical Commission (IEC) is a worldwide organization for standardization comprising all national electrotechnical committees (IEC National Committees). The object of IEC is to promote international co-operation on all questions concerning standardization in the electrical and electronic fields. To this end and in addition to other activities, IEC publishes International Standards, Technical Specifications, Technical Reports, Publicly Available Specifications (PAS) and Guides (hereafter referred to as “IEC Publication(s)”). Their preparation is entrusted to technical committees; any IEC National Committee interested in the subject dealt with may participate in this preparatory work. International, governmental and non-governmental organizations liaising with the IEC also participate in this preparation. IEC collaborates closely with the International Organization for Standardization (ISO) in accordance with conditions determined by agreement between the two organizations.
- 2) The formal decisions or agreements of IEC on technical matters express, as nearly as possible, an international consensus of opinion on the relevant subjects since each technical committee has representation from all interested IEC National Committees.
- 3) IEC Publications have the form of recommendations for international use and are accepted by IEC National Committees in that sense. While all reasonable efforts are made to ensure that the technical content of IEC Publications is accurate, IEC cannot be held responsible for the way in which they are used or for any misinterpretation by any end user.
- 4) In order to promote international uniformity, IEC National Committees undertake to apply IEC Publications transparently to the maximum extent possible in their national and regional publications. Any divergence between any IEC Publication and the corresponding national or regional publication shall be clearly indicated in the latter.
- 5) IEC itself does not provide any attestation of conformity. Independent certification bodies provide conformity assessment services and, in some areas, access to IEC marks of conformity. IEC is not responsible for any services carried out by independent certification bodies.
- 6) All users should ensure that they have the latest edition of this publication.
- 7) No liability shall attach to IEC or its directors, employees, servants or agents including individual experts and members of its technical committees and IEC National Committees for any personal injury, property damage or other damage of any nature whatsoever, whether direct or indirect, or for costs (including legal fees) and expenses arising out of the publication, use of, or reliance upon, this IEC Publication or any other IEC Publications.
- 8) Attention is drawn to the Normative references cited in this publication. Use of the referenced publications is indispensable for the correct application of this publication.
- 9) Attention is drawn to the possibility that some of the elements of this IEC Publication may be the subject of patent rights. IEC shall not be held responsible for identifying any or all such patent rights.

International Standard IEC 61800-7-304 has been prepared by subcommittee SC 22G: Adjustable speed electric drive systems incorporating semiconductor power converters, of IEC technical committee TC 22: Power electronic systems and equipment.

This second edition cancels and replaces the first edition published in 2007. This edition constitutes a technical revision.

This edition includes the following significant technical change with respect to the previous edition: Update of mapping specification.

The text of this standard is based on the following documents:

FDIS	Report on voting
22G/314/FDIS	22G/329/RVD
