About the IEC

The International Electrotechnical Commission (IEC) is the leading global organization that prepares and publishes International Standards for all electrical, electronic and related technologies.

About IEC publications

The technical content of IEC publications is kept under constant review by the IEC. Please make sure that you have the latest edition, a corrigenda or an amendment might have been published.

Useful links:

IEC publications search - www.iec.ch/searchpub

The advanced search enables you to find IEC publications by a variety of criteria (reference number, text, technical committee,...).

It also gives information on projects, replaced and withdrawn publications.

IEC Just Published - webstore.iec.ch/justpublished

Stay up to date on all new IEC publications. Just Published details all new publications released. Available on-line and also once a month by email.

Electropedia - www.electropedia.org

The world's leading online dictionary of electronic and electrical terms containing more than 30 000 terms and definitions in English and French, with equivalent terms in additional languages. Also known as the International Electrotechnical Vocabulary (IEV) on-line.

Customer Service Centre - webstore.iec.ch/csc

If you wish to give us your feedback on this publication or need further assistance, please contact the Customer Service Centre: csc@iec.ch.

A propos de la CEI

La Commission Electrotechnique Internationale (CEI) est la première organisation mondiale qui élabore et publie des Normes internationales pour tout ce qui a trait à l'électricité, à l'électronique et aux technologies apparentées.

A propos des publications CEI

Le contenu technique des publications de la CEI est constamment revu. Veuillez vous assurer que vous possédez l'édition la plus récente. un corrigendum ou amendement peut avoir été publié.

Liens utiles:

Recherche de publications CEI - www.iec.ch/searchpub

La recherche avancée vous permet de trouver des publications CEI en utilisant différents critères (numéro de référence, texte, comité d'études,...).

Elle donne aussi des informations sur les projets et les publications remplacées ou retirées.

Just Published CEI - webstore.iec.ch/justpublished

Restez informé sur les nouvelles publications de la CEI. Just Published détaille les nouvelles publications parues. Disponible en ligne et aussi une fois par mois par email.

Electropedia - www.electropedia.org

Le premier dictionnaire en ligne au monde de termes électroniques et électriques. Il contient plus de 30 000 termes et définitions en anglais et en français, ainsi que les termes équivalents dans les langues additionnelles. Egalement appelé Vocabulaire Electrotechnique International (VEI) en ligne.

Service Clients - webstore.iec.ch/csc

Si vous désirez nous donner des commentaires sur cette publication ou si vous avez des questions contactez-nous: csc@iec.ch.

CONTENTS

FOREWORD.....	5
1 General.....	7
1.1 Scope.....	7
1.2 Object.....	7
1.3 Normative references.....	7
2 Technical data.....	8
2.1 Units, symbols and terminology.....	8
2.2 Terms and definitions.....	9
2.3 Preferred values and characteristics.....	13
2.4 Marking.....	13
2.4.1 General.....	13
2.4.2 Coding.....	14
3 Quality assessment procedures.....	14
3.1 Qualification approval/quality assessment systems.....	14
3.2 Primary stage of manufacture.....	14
3.3 Structurally similar components.....	14
3.4 Qualification approval procedures.....	15
3.5 Quality conformance inspection.....	15
3.5.1 Certified records of released lots.....	15
3.5.2 Delayed delivery.....	15
3.5.3 Release for delivery before the completion of Group B tests.....	16
3.6 Alternative test methods.....	16
3.7 Unchecked parameters.....	16
4 Test and measurement procedures.....	16
4.1 General.....	16
4.2 Standard atmospheric conditions.....	16
4.2.1 Standard atmospheric conditions for testing.....	16
4.2.2 Recovery conditions.....	17
4.2.3 Referee conditions.....	17
4.2.4 Reference conditions.....	17
4.3 Drying and recovery.....	17
4.4 Visual examination and check of dimensions.....	18
4.4.1 Visual examination.....	18
4.4.2 Marking.....	18
4.4.3 Dimensions (gauging).....	18
4.4.4 Dimensions (detail).....	18
4.5 Nominal varistor voltage or leakage current (not applicable to pulse measurements).....	18
4.5.1 Test procedure.....	18
4.5.2 Measurement and requirements.....	18
4.6 Pulse current.....	18
4.6.1 Standard pulse currents.....	19
4.6.2 Tolerances.....	19
4.6.3 Measurement of the pulse current.....	19
4.7 Voltage under pulse condition.....	19
4.8 Capacitance.....	20

4.9	Voltage proof (for insulated varistors only)	20
4.9.1	V-block method	20
4.9.2	Metal ball method	20
4.9.3	Foil method	21
4.10	Insulation resistance (for insulated varistors only)	21
4.10.1	Test procedure	21
4.10.2	Measurement and requirements	21
4.11	Robustness of terminations	22
4.11.1	General	22
4.11.2	Test U_{a1} – Tensile	22
4.11.3	Test U_b – Bending (half of the number of terminations)	22
4.11.4	Test U_c – Torsion (other half of the number of terminations)	22
4.11.5	Test U_d – Torque (for terminations with threaded studs or screws and for integral mounting devices)	22
4.11.6	Visual examination	22
4.11.7	Final measurement	22
4.12	Resistance to soldering heat	23
4.12.1	Preconditioning	23
4.12.2	Test procedure	23
4.12.3	Recovery	23
4.12.4	Final inspection, measurement and requirements	23
4.13	Solderability	23
4.13.1	Test procedure	23
4.13.2	Final inspection, measurements and requirements	24

INTERNATIONAL ELECTROTECHNICAL COMMISSION

VARISTORS FOR USE IN ELECTRONIC EQUIPMENT –

Part 1: Generic specification

FOREWORD

- 1) The International Electrotechnical Commission (IEC) is a worldwide organization for standardization comprising all national electrotechnical committees (IEC National Committees). The object of IEC is to promote international co-operation on all questions concerning standardization in the electrical and electronic fields. To this end and in addition to other activities, IEC publishes International Standards, Technical Specifications, Technical Reports, Publicly Available Specifications (PAS) and Guides (hereafter referred to as "IEC Publication(s)"). Their preparation is entrusted to technical committees; any IEC National Committee interested in the subject dealt with may participate in this preparatory work. International, governmental and non-governmental organizations liaising with the IEC also participate in this preparation. IEC collaborates closely with the International Organization for Standardization (ISO) in accordance with conditions determined by agreement between the two organizations.
- 2) The formal decisions or agreements of IEC on technical matters express, as nearly as possible, an international consensus of opinion on the relevant subjects since each technical committee has representation from all interested IEC National Committees.
- 3) IEC Publications have the form of recommendations for international use and are accepted by IEC National Committees in that sense. While all reasonable efforts are made to ensure that the technical content of IEC Publications is accurate, IEC cannot be held responsible for the way in which they are used or for any misinterpretation by any end user.
- 4) In order to promote international uniformity, IEC National Committees undertake to apply IEC Publications transparently to the maximum extent possible in their national and regional publications. Any divergence between any IEC Publication and the corresponding national or regional publication shall be clearly indicated in the latter.
- 5) IEC provides no marking procedure to indicate its approval and cannot be rendered responsible for any equipment declared to be in conformity with an IEC Publication.
- 6) All users should ensure that they have the latest edition of this publication.
- 7) No liability shall attach to IEC or its directors, employees, servants or agents including individual experts and members of its technical committees and IEC National Committees for any personal injury, property damage or other damage of any nature whatsoever, whether direct or indirect, or for costs (including legal fees) and expenses arising out of the publication, use of, or reliance upon, this IEC Publication or any other IEC Publications.
- 8) Attention is drawn to the Normative references cited in this publication. Use of the referenced publications is indispensable for the correct application of this publication.
- 9) Attention is drawn to the possibility that some of the elements of this IEC Publication may be the subject of patent rights. IEC shall not be held responsible for identifying any or all such patent rights.

International Standard IEC 61051-1 has been prepared by IEC technical committee 40: Capacitors and resistors for electronic equipment.

This second edition cancels and replaces the first edition published in 1991 and constitutes a minor revision related to tables, figures and references.

This bilingual version (2012-06) corresponds to the monolingual English version, published in 2007-04.

The text of this standard is based on the following documents:

CDV	Report on voting
40/1775/CDV	40/1841/RVC

Full information on the voting for the approval of this standard can be found in the report on voting indicated in the above table.

The French version of this standard has not been voted upon.

This publication has been drafted in accordance with the ISO/IEC Directives, Part 2.

The list of all the parts of the IEC 61051 series, under the general title *Varistors for use in electronic equipment*, can be found on the IEC website.

The committee has decided that the contents of this publication will remain unchanged until the maintenance result date indicated on the IEC web site under "<http://webstore.iec.ch>" in the data related to the specific publication. At this date, the publication will be

- reconfirmed,
- withdrawn,
- replaced by a revised edition, or
- amended.
