About the IEC

The International Electrotechnical Commission (IEC) is the leading global organization that prepares and publishes International Standards for all electrical, electronic and related technologies.

About IEC publications

The technical content of IEC publications is kept under constant review by the IEC. Please make sure that you have the latest edition, a corrigenda or an amendment might have been published.

- Catalogue of IEC publications: www.iec.ch/searchpub

The IEC on-line Catalogue enables you to search by a variety of criteria (reference number, text, technical committee,...). It also gives information on projects, withdrawn and replaced publications.

- IEC Just Published: www.iec.ch/online_news/justpub

Stay up to date on all new IEC publications. Just Published details twice a month all new publications released. Available on-line and also by email.

- Electropedia: www.electropedia.org

The world's leading online dictionary of electronic and electrical terms containing more than 20 000 terms and definitions in English and French, with equivalent terms in additional languages. Also known as the International Electrotechnical Vocabulary online.

- Customer Service Centre: www.iec.ch/webstore/custserv

If you wish to give us your feedback on this publication or need further assistance, please visit the Customer Service Centre FAQ or contact us:

A propos de la CEI

La Commission Electrotechnique internationale (CEI) est la première organisation mondiale qui élabore et publie des normes internationales pour tout ce qui a trait à l'électricité, à l'électronique et aux technologies apparentées.

A propos des publications CEI

Le contenu technique des publications de la CEI est constamment revu. Veuillez vous assurer que vous possédez l'édition la plus récente, un corrigendum ou amendement peut avoir été publié.

- Catalogue des publications de la CEI: www.iec.ch/searchpub/cur_fut-f.htm

Le Catalogue en-ligne de la CEI vous permet d'effectuer des recherches en utilisant différents critères (numéro de référence, texte, comité d'études,...). Il donne aussi des informations sur les projets et les publications retirées ou remplacées.

- Just Published CEI: www.iec.ch/online_news/justpub

Restez informé sur les nouvelles publications de la CEI. Just Published détaille deux fois par mois les nouvelles publications parues. Disponible en-ligne et aussi par email.

- Electropedia: www.electropedia.org

Le premier dictionnaire en ligne au monde de termes électroniques et électriques. Il contient plus de 20 000 termes et définitions en anglais et en français, ainsi que les termes équivalents dans les langues additionnelles. Egalement appelé Vocabulaire Electrotechnique International en ligne.

- Service Clients: www.iec.ch/webstore/custserv/custserv_entry-f.htm

FOREWORD.....	4
1 General.....	6
1.1 Scope.....	6
1.2 Normative references.....	6
1.3 Information to be given in a detail specification.....	6
1.3.1 Outline drawing and dimensions.....	7
1.3.2 Mounting.....	7
1.3.3 Ratings and characteristics.....	7
1.4 Terminology.....	7
2 Preferred ratings and characteristics.....	7
2.1 Tolerances on rated zero-power resistance.....	7
2.2 Climatic categories.....	7
3 Quality assessment procedures.....	8
3.1 Primary stage of manufacture.....	8
3.2 Structurally similar components.....	8
3.3 Qualification approval procedures.....	8
3.3.1 The manufacturer shall comply with 3.4 of IEC 60539-1.....	8
3.4 Quality conformance inspection.....	8
3.4.1 Qualification approval on the basis of the fixed sample size procedure.....	8
3.5 Quality conformance inspection.....	10
3.5.1 Formation of inspection lots.....	10
3.5.2 Test schedule.....	11
3.5.3 Delayed delivery.....	11
3.5.4 Assessment level.....	11
4 Test and measurement procedures.....	12
4.1 Mounting.....	12
4.2 Drying and recovery.....	12
4.2.1 Drying.....	12
4.2.2 Recovery.....	12
4.3 Visual examination and check of dimensions.....	12
4.3.1 Visual examination.....	12
4.3.2 Requirements.....	12
4.3.3 Marking.....	14
4.3.4 Dimensions.....	14
4.4 Electrical tests.....	14
4.4.1 Zero-power resistance.....	14
4.4.2 <i>B</i> -value or resistance ratio.....	14
4.4.3 Resistance/temperature characteristic.....	15
4.5 Thermal tests.....	15
4.5.1 Dissipation factor (δ).....	15
4.5.2 Thermal time constant by cooling after self-heating (τ_c).....	15
4.6 Resistance to soldering heat.....	15
4.6.1 Initial measurement.....	15
4.6.2 Test conditions.....	15
4.6.3 Recovery.....	16

4.6.4	Final inspection, measurements and requirements	16
4.7	Solderability	16
4.7.1	Test conditions	16
4.7.2	Recovery	17
4.7.3	Final inspection, measurements and requirements	17
4.8	Rapid change of temperature	17
4.9	Thermal shock	17
4.10	Climatic sequence	18
4.10.1	Initial measurements	18
4.10.2	Dry heat	18
4.10.3	Damp heat (cyclic), first cycle	18
4.10.4	Cold	18
4.10.5	Damp heat (cyclic), remaining cycles	18
4.10.6	Final measurements	19
4.11	Damp heat, steady state	19
4.12	Endurance	19
4.12.1	Endurance at θ_3 and P_{max}	19
4.12.2	Endurance at upper category temperature	19
4.13	Shear (adhesion) test	20
4.14	Substrate bending test	20
4.15	Component solvent resistance	20
4.16	Solvent resistance of marking	20

INTERNATIONAL ELECTROTECHNICAL COMMISSION

**DIRECTLY HEATED NEGATIVE TEMPERATURE
COEFFICIENT THERMISTORS –**

**Part 2: Sectional specification –
Surface mount negative temperature coefficient thermistors**

FOREWORD

- 1) The International Electrotechnical Commission (IEC) is a worldwide organization for standardization comprising all national electrotechnical committees (IEC National Committees). The object of IEC is to promote international co-operation on all questions concerning standardization in the electrical and electronic fields. To this end and in addition to other activities, IEC publishes International Standards, Technical Specifications, Technical Reports, Publicly Available Specifications (PAS) and Guides (hereafter referred to as "IEC Publication(s)"). Their preparation is entrusted to technical committees; any IEC National Committee interested in the subject dealt with may participate in this preparatory work. International, governmental and non-governmental organizations liaising with the IEC also participate in this preparation. IEC collaborates closely with the International Organization for Standardization (ISO) in accordance with conditions determined by agreement between the two organizations.
- 2) The formal decisions or agreements of IEC on technical matters express, as nearly as possible, an international consensus of opinion on the relevant subjects since each technical committee has representation from all interested IEC National Committees.
- 3) IEC Publications have the form of recommendations for international use and are accepted by IEC National Committees in that sense. While all reasonable efforts are made to ensure that the technical content of IEC Publications is accurate, IEC cannot be held responsible for the way in which they are used or for any misinterpretation by any end user.
- 4) In order to promote international uniformity, IEC National Committees undertake to apply IEC Publications transparently to the maximum extent possible in their national and regional publications. Any divergence between any IEC Publication and the corresponding national or regional publication shall be clearly indicated in the latter.
- 5) IEC itself does not provide any attestation of conformity. Independent certification bodies provide conformity assessment services and, in some areas, access to IEC marks of conformity. IEC is not responsible for any services carried out by independent certification bodies.
- 6) All users should ensure that they have the latest edition of this publication.
- 7) No liability shall attach to IEC or its directors, employees, servants or agents including individual experts and members of its technical committees and IEC National Committees for any personal injury, property damage or other damage of any nature whatsoever, whether direct or indirect, or for costs (including legal fees) and expenses arising out of the publication, use of, or reliance upon, this IEC Publication or any other IEC Publications.
- 8) Attention is drawn to the Normative references cited in this publication. Use of the referenced publications is indispensable for the correct application of this publication.
- 9) Attention is drawn to the possibility that some of the elements of this IEC Publication may be the subject of patent rights. IEC shall not be held responsible for identifying any or all such patent rights.

International Standard IEC 60539-2 has been prepared by IEC technical committee 40: Capacitors and resistors for electronic equipment.

This bilingual version, published in 2010-07, corresponds to the English version.

The text of this standard is based on the following documents:

FDIS	Report on voting
40/1346/FDIS	40/1368/RVD

Full information on the voting for the approval of this standard can be found in the report on voting indicated in the above table.

The French version of this standard has not been voted upon.

This publication has been drafted in accordance with the ISO/IEC Directives, Part 2.

The committee has decided that the contents of this publication will remain unchanged until the stability date indicated on the IEC web site under "<http://webstore.iec.ch>" in the data related to the specific publication. At this date, the publication will be

- reconfirmed,
- withdrawn,
- replaced by a revised edition, or
- amended.

IMPORTANT – The 'colour inside' logo on the cover page of this publication indicates that it contains colours which are considered to be useful for the correct understanding of its contents. Users should therefore print this document using a colour printer.
