About the IEC

The International Electrotechnical Commission (IEC) is the leading global organization that prepares and publishes International Standards for all electrical, electronic and related technologies.

About IEC publications

The technical content of IEC publications is kept under constant review by the IEC. Please make sure that you have the latest edition, a corrigenda or an amendment might have been published.

- Catalogue of IEC publications: www.iec.ch/searchpub

The IEC on-line Catalogue enables you to search by a variety of criteria (reference number, text, technical committee,...). It also gives information on projects, withdrawn and replaced publications.

- IEC Just Published: www.iec.ch/online_news/justpub

Stay up to date on all new IEC publications. Just Published details twice a month all new publications released. Available on-line and also by email.

- Electropedia: www.electropedia.org

The world's leading online dictionary of electronic and electrical terms containing more than 20 000 terms and definitions in English and French, with equivalent terms in additional languages. Also known as the International Electrotechnical Vocabulary online.

- Customer Service Centre: www.iec.ch/webstore/custserv

A propos de la CEI

La Commission Electrotechnique internationale (CEI) est la première organisation mondiale qui élabore et publie des normes internationales pour tout ce qui a trait à l'électricité, à l'électronique et aux technologies apparentées.

A propos des publications CEI

Le contenu technique des publications de la CEI est constamment revu. Veuillez vous assurer que vous possédez l'édition la plus récente, un corrigendum ou amendement peut avoir été publié.

- Catalogue des publications de la CEI: www.iec.ch/searchpub/cur_fut-f.htm

Le Catalogue en-ligne de la CEI vous permet d'effectuer des recherches en utilisant différents critères (numéro de référence, texte, comité d'études,...). Il donne aussi des informations sur les projets et les publications retirées ou remplacées.

- Just Published CEI: www.iec.ch/online_news/justpub

Restez informé sur les nouvelles publications de la CEI. Just Published détaille deux fois par mois les nouvelles publications parues. Disponible en-ligne et aussi par email.

- Electropedia: www.electropedia.org

Le premier dictionnaire en ligne au monde de termes électroniques et électriques. Il contient plus de 20 000 termes et définitions en anglais et en français, ainsi que les termes équivalents dans les langues additionnelles. Egalement appelé Vocabulaire Electrotechnique International en ligne.

- Service Clients: www.iec.ch/webstore/custserv/custserv_entry-f.htm

CONTENTS

FOREWORD.....	4
1 Scope.....	6
2 Normative references	6
3 Terms and definitions	7
4 Construction.....	7
4.1 General.....	7
4.2 Optical fibres and primary coating	7
4.3 Buffer.....	7
4.4 Tube.....	8
4.5 Strength and anti-buckling members	8
4.6 Sheath	8
4.7 Sheath marking	8
4.8 Examples of cable constructions	8
5 Tests.....	8
5.1 Dimensions	9
5.2 Mechanical requirements.....	9
5.2.1 Tensile performance.....	9
5.2.2 Crush	9
5.2.3 Impact.....	10
5.2.4 Repeated bending	10
5.2.5 Bend.....	10
5.2.6 Torsion.....	11
5.2.7 Bend at low temperature.....	11
5.2.8 Kink.....	11
5.2.9 Sheath pull-off force.....	11
5.2.10 Buffered fibre movement in compression	12
5.3 Environmental requirements.....	12
5.3.1 Temperature cycling	12
5.3.2 Sheath shrinkage.....	13
5.4 Transmission requirements	13
5.5 Fire performance.....	13
Annex A (informative) Examples of some types of cable construction	14
Annex B (normative) METHOD E21 – Sheath pull-off force for optical fibre cable for use in patch cords	17
Annex C (normative) METHOD F11 – Sheath shrinkage for optical fibre cable for use in patchcords	22
Annex D (normative) METHOD E22 – Buffered fibre movement under compression in optical fibre cables for use in patchcords	24
Annex E (normative) METHOD F12 – Temperature cycling for optical fibre cable for use in patchcords	26
Annex F (normative) Guidance on the selection of tests applicable to optical fibre cables for use in patchcords	28
Bibliography.....	31
Figure A.1 – Simplex loose non-buffered fibre cable	14

Figure A.2 – Simplex ruggedized fibre cable	14
Figure A.3 – Duplex loose non-buffered fibre cable	14
Figure A.4 – Duplex ruggedized fibre cable	15
Figure A.5 – Duplex ruggedized fibre zip cord	15
Figure A.6 – Duplex ruggedized flat cable	15
Figure A.7 – Duplex ruggedized round cable	16
Figure B.1 – Schematic of test arrangement	19
Figure B.2 – Example of pulling jig	20
Figure B.3 – Cable sample preparation	21
Figure D.1 – Test set up for fibre movement under compression	25
Table 1 – Dimensions of buffered fibres	8
Table 2 – Temperature cycling severities	12
Table F.1 – Cable test method summary	28
Table F.2 – Cable testing agreement	30

INTERNATIONAL ELECTROTECHNICAL COMMISSION

OPTICAL FIBRE CABLES –

**Part 2-50: Indoor cables –
Family specification for simplex and duplex cables
for use in terminated cable assemblies**

FOREWORD

- 1) The International Electrotechnical Commission (IEC) is a worldwide organization for standardization comprising all national electrotechnical committees (IEC National Committees). The object of IEC is to promote international co-operation on all questions concerning standardization in the electrical and electronic fields. To this end and in addition to other activities, IEC publishes International Standards, Technical Specifications, Technical Reports, Publicly Available Specifications (PAS) and Guides (hereafter referred to as “IEC Publication(s)”). Their preparation is entrusted to technical committees; any IEC National Committee interested in the subject dealt with may participate in this preparatory work. International, governmental and non-governmental organizations liaising with the IEC also participate in this preparation. IEC collaborates closely with the International Organization for Standardization (ISO) in accordance with conditions determined by agreement between the two organizations.
- 2) The formal decisions or agreements of IEC on technical matters express, as nearly as possible, an international consensus of opinion on the relevant subjects since each technical committee has representation from all interested IEC National Committees.
- 3) IEC Publications have the form of recommendations for international use and are accepted by IEC National Committees in that sense. While all reasonable efforts are made to ensure that the technical content of IEC Publications is accurate, IEC cannot be held responsible for the way in which they are used or for any misinterpretation by any end user.
- 4) In order to promote international uniformity, IEC National Committees undertake to apply IEC Publications transparently to the maximum extent possible in their national and regional publications. Any divergence between any IEC Publication and the corresponding national or regional publication shall be clearly indicated in the latter.
- 5) IEC provides no marking procedure to indicate its approval and cannot be rendered responsible for any equipment declared to be in conformity with an IEC Publication.
- 6) All users should ensure that they have the latest edition of this publication.
- 7) No liability shall attach to IEC or its directors, employees, servants or agents including individual experts and members of its technical committees and IEC National Committees for any personal injury, property damage or other damage of any nature whatsoever, whether direct or indirect, or for costs (including legal fees) and expenses arising out of the publication, use of, or reliance upon, this IEC Publication or any other IEC Publications.
- 8) Attention is drawn to the Normative references cited in this publication. Use of the referenced publications is indispensable for the correct application of this publication.
- 9) Attention is drawn to the possibility that some of the elements of this IEC Publication may be the subject of patent rights. IEC shall not be held responsible for identifying any or all such patent rights.

International Standard IEC 60794-2-50 has been prepared by subcommittee 86A: Fibres and cables, of IEC technical committee 86: Fibre optics.

This standard cancels and replaces IEC/PAS 60794-2-50 published in 2004. This first edition constitutes a technical revision.

This standard is to be used in conjunction with IEC 60794-1-1, IEC 60794-1-2 and IEC 60794-2.

This bilingual version, published in 2008-07, corresponds to the English version.

The text of this standard is based on the following documents:

FDIS	Report on voting
86A/1204/FDIS	86A/1223/RVD

Full information on the voting for the approval of this standard can be found in the report on voting indicated in the above table.

The French version of this standard has not been voted upon.

This publication has been drafted in accordance with the ISO/IEC Directives, Part 2.

A list of all parts of IEC 60794 series, under the general title *Optical fibre cables*, can be found on the IEC website.

The committee has decided that the contents of this publication will remain unchanged until the maintenance result date indicated on the IEC web site under "<http://webstore.iec.ch>" in the data related to the specific publication. At this date, the publication will be

- reconfirmed,
- withdrawn,
- replaced by a revised edition, or
- amended.
