### About the IEC

The International Electrotechnical Commission (IEC) is the leading global organization that prepares and publishes International Standards for all electrical, electronic and related technologies.

### About IEC publications

The technical content of IEC publications is kept under constant review by the IEC. Please make sure that you have the latest edition, a corrigenda or an amendment might have been published.

- Catalogue of IEC publications: [www.iec.ch/searchpub](http://www.iec.ch/searchpub)

The IEC on-line Catalogue enables you to search by a variety of criteria (reference number, text, technical committee,...). It also gives information on projects, withdrawn and replaced publications.

- IEC Just Published: [www.iec.ch/online\\_news/justpub](http://www.iec.ch/online_news/justpub)

Stay up to date on all new IEC publications. Just Published details twice a month all new publications released. Available on-line and also by email.

- Electropedia: [www.electropedia.org](http://www.electropedia.org)

The world's leading online dictionary of electronic and electrical terms containing more than 20 000 terms and definitions in English and French, with equivalent terms in additional languages. Also known as the International Electrotechnical Vocabulary online.

- Customer Service Centre: [www.iec.ch/webstore/custserv](http://www.iec.ch/webstore/custserv)

If you wish to give us your feedback on this publication or need further assistance, please visit the Customer Service Centre FAQ or contact us:

### A propos de la CEI

La Commission Electrotechnique internationale (CEI) est la première organisation mondiale qui élabore et publie des normes internationales pour tout ce qui a trait à l'électricité, à l'électronique et aux technologies apparentées.

### A propos des publications CEI

Le contenu technique des publications de la CEI est constamment revu. Veuillez vous assurer que vous possédez l'édition la plus récente, un corrigendum ou amendement peut avoir été publié.

- Catalogue des publications de la CEI: [www.iec.ch/searchpub/cur\\_fut-f.htm](http://www.iec.ch/searchpub/cur_fut-f.htm)

Le Catalogue en-ligne de la CEI vous permet d'effectuer des recherches en utilisant différents critères (numéro de référence, texte, comité d'études,...). Il donne aussi des informations sur les projets et les publications retirées ou remplacées.

- Just Published CEI: [www.iec.ch/online\\_news/justpub](http://www.iec.ch/online_news/justpub)

Restez informé sur les nouvelles publications de la CEI. Just Published détaille deux fois par mois les nouvelles publications parues. Disponible en-ligne et aussi par email.

- Electropedia: [www.electropedia.org](http://www.electropedia.org)

Le premier dictionnaire en ligne au monde de termes électroniques et électriques. Il contient plus de 20 000 termes et définitions en anglais et en français, ainsi que les termes équivalents dans les langues additionnelles. Egalement appelé Vocabulaire Electrotechnique International en ligne.

- Service Clients: [www.iec.ch/webstore/custserv/custserv\\_entry-f.htm](http://www.iec.ch/webstore/custserv/custserv_entry-f.htm)

## CONTENTS

FOREWORD.....	5
1 Scope and object.....	7
2 Normative references .....	7
3 Terms and definitions, abbreviations, quantities and units .....	8
3.1 Terms and definitions .....	8
3.2 Abbreviations .....	10
3.3 Quantities and units .....	11
4 Design requirements .....	12
4.1 General requirements .....	12
4.1.1 Pedestrian monitor .....	12
4.1.2 Vehicle monitor.....	13
4.1.3 Rail vehicle monitor (includes rail transported containers) .....	13
4.1.4 Package (or conveyor) monitor .....	13
4.2 Physical configuration .....	14
4.3 Spectral identification and count rate information .....	14
4.4 Indication features.....	15
4.5 Occupancy and speed sensors for vehicle monitors .....	15
4.6 Markings .....	15
4.7 Power supply.....	15
4.7.1 Requirements .....	15
4.7.2 Method of test .....	16
4.8 Protection of switches .....	16
4.9 Energy and count rate range .....	16
4.10 Communications protocol and data format.....	16
4.11 User interface.....	16
4.11.1 Guidance regarding alarm logic .....	16
4.11.2 Audible (sound) alarm .....	17
4.11.3 Visual indicators .....	17
4.11.4 Warning indicators.....	17
4.11.5 Basic indications and functions.....	17
4.11.6 Advanced indications and functions .....	18
5 Radiation detection and indication performance requirements .....	18
5.1 General test conditions.....	18
5.1.1 Nature of tests.....	18
5.1.2 Reference conditions and standard test conditions .....	18
5.1.3 Statistical fluctuations.....	18
5.2 Reference radiation .....	19
5.3 Alarm categorization.....	19
5.4 False alarms .....	19
5.4.1 Requirements .....	19
5.4.2 Method of test .....	19
5.5 Response to gamma radiation .....	19
5.5.1 Requirements .....	19
5.5.2 Method of test .....	19
5.6 Radiation intensity and identification alarm.....	20
5.6.1 Requirements .....	20

5.6.2	Method of test .....	20
5.7	Response to neutron radiation.....	20
5.7.1	Requirements .....	20
5.7.2	Method of test .....	20
5.8	Over-range.....	20
5.8.1	Requirements .....	20
5.8.2	Method of test .....	21
5.9	Neutron indication in the presence of photons .....	21
5.9.1	Requirements .....	21
5.9.2	Method of test .....	21
5.10	Background effects.....	21
5.10.1	Requirements .....	21
5.10.2	Method of test .....	21
5.11	Radionuclide identification.....	22
5.11.1	Radionuclide categorization.....	22
5.11.2	Radionuclide identification qualification .....	22
5.11.3	General requirements for testing radionuclide identification ability .....	22
5.11.4	Single radionuclide identification .....	23
5.11.5	Identification of shielded radionuclides.....	24
5.11.6	Simultaneous radionuclide identification and masking.....	25
5.11.7	Over-range characteristics for identification .....	26
5.11.8	Pile-up effects .....	26
5.11.9	Radionuclide not in library.....	27
5.12	Environmental tests.....	27
5.12.1	Ambient temperature .....	27
5.12.2	Humidity tests.....	28
5.12.3	Dust and moisture resistance tests .....	28
5.13	Mechanical requirements.....	29
5.13.1	Vibration.....	29
5.13.2	Microphonics/Impact.....	30
5.14	Electromagnetic performance requirements.....	30
5.14.1	Electrostatic discharge (ESD).....	30
5.14.2	Radio frequency .....	30
5.14.3	Radiated RF emissions .....	31
5.14.4	Conducted disturbances .....	31
5.14.5	Magnetic fields .....	31
5.14.6	Surges and oscillatory waves .....	32
6	Documentation .....	32
6.1	Type test report.....	32
6.2	Certificate .....	32
6.3	Operation and maintenance manuals.....	32
Annex A (informative)	Identification of uranium isotopes .....	36
Bibliography	.....	37
Figure 1	– Diagram of mounting dimensions for radionuclide identifying portal monitors .....	9
Table 1	– Speed of moving sources .....	33
Table 2	– Evaluation distances for different applications .....	33

Table 3 – Reference and standard test conditions ..... 34  
Table 4 – Approximate activity values for gamma-ray and neutron sources ..... 34  
Table 5 – Example of alarm categorizations ..... 35  
Table 6 – Emission limits ..... 35  
Table A.1 – Uranium detection and identification guidance ..... 36

## INTERNATIONAL ELECTROTECHNICAL COMMISSION

**RADIATION PROTECTION INSTRUMENTATION –  
SPECTROSCOPY-BASED PORTAL MONITORS USED  
FOR THE DETECTION AND IDENTIFICATION OF ILLICIT  
TRAFFICKING OF RADIOACTIVE MATERIAL**

## FOREWORD

- 1) The International Electrotechnical Commission (IEC) is a worldwide organization for standardization comprising all national electrotechnical committees (IEC National Committees). The object of IEC is to promote international co-operation on all questions concerning standardization in the electrical and electronic fields. To this end and in addition to other activities, IEC publishes International Standards, Technical Specifications, Technical Reports, Publicly Available Specifications (PAS) and Guides (hereafter referred to as "IEC Publication(s)"). Their preparation is entrusted to technical committees; any IEC National Committee interested in the subject dealt with may participate in this preparatory work. International, governmental and non-governmental organizations liaising with the IEC also participate in this preparation. IEC collaborates closely with the International Organization for Standardization (ISO) in accordance with conditions determined by agreement between the two organizations.
- 2) The formal decisions or agreements of IEC on technical matters express, as nearly as possible, an international consensus of opinion on the relevant subjects since each technical committee has representation from all interested IEC National Committees.
- 3) IEC Publications have the form of recommendations for international use and are accepted by IEC National Committees in that sense. While all reasonable efforts are made to ensure that the technical content of IEC Publications is accurate, IEC cannot be held responsible for the way in which they are used or for any misinterpretation by any end user.
- 4) In order to promote international uniformity, IEC National Committees undertake to apply IEC Publications transparently to the maximum extent possible in their national and regional publications. Any divergence between any IEC Publication and the corresponding national or regional publication shall be clearly indicated in the latter.
- 5) IEC itself does not provide any attestation of conformity. Independent certification bodies provide conformity assessment services and, in some areas, access to IEC marks of conformity. IEC is not responsible for any services carried out by independent certification bodies.
- 6) All users should ensure that they have the latest edition of this publication.
- 7) No liability shall attach to IEC or its directors, employees, servants or agents including individual experts and members of its technical committees and IEC National Committees for any personal injury, property damage or other damage of any nature whatsoever, whether direct or indirect, or for costs (including legal fees) and expenses arising out of the publication, use of, or reliance upon, this IEC Publication or any other IEC Publications.
- 8) Attention is drawn to the Normative references cited in this publication. Use of the referenced publications is indispensable for the correct application of this publication.
- 9) Attention is drawn to the possibility that some of the elements of this IEC Publication may be the subject of patent rights. IEC shall not be held responsible for identifying any or all such patent rights.

International Standard IEC 62484 has been prepared by subcommittee 45B: Radiation protection instrumentation, of IEC technical committee 45: Nuclear instrumentation.

The text of this standard is based on the following documents:

FDIS	Report on voting
45B/634/FDIS	45B/644/RVD

Full information on the voting for the approval of this standard can be found in the report on voting indicated in the above table.

This publication has been drafted in accordance with the ISO/IEC Directives, Part 2.

The committee has decided that the contents of this publication will remain unchanged until the stability date indicated on the IEC web site under "<http://webstore.iec.ch>" in the data related to the specific publication. At this date, the publication will be

- reconfirmed,
- withdrawn,
- replaced by a revised edition, or
- amended.
