### About the IEC

The International Electrotechnical Commission (IEC) is the leading global organization that prepares and publishes International Standards for all electrical, electronic and related technologies.

### About IEC publications

The technical content of IEC publications is kept under constant review by the IEC. Please make sure that you have the latest edition, a corrigendum or an amendment might have been published.

#### IEC publications search - [webstore.iec.ch/advsearchform](http://webstore.iec.ch/advsearchform)

The advanced search enables to find IEC publications by a variety of criteria (reference number, text, technical committee,...). It also gives information on projects, replaced and withdrawn publications.

#### IEC Just Published - [webstore.iec.ch/justpublished](http://webstore.iec.ch/justpublished)

Stay up to date on all new IEC publications. Just Published details all new publications released. Available online and once a month by email.

#### IEC Customer Service Centre - [webstore.iec.ch/csc](http://webstore.iec.ch/csc)

If you wish to give us your feedback on this publication or need further assistance, please contact the Customer Service Centre: [sales@iec.ch](mailto:sales@iec.ch).

#### Electropedia - [www.electropedia.org](http://www.electropedia.org)

The world's leading online dictionary on electrotechnology, containing more than 22 000 terminological entries in English and French, with equivalent terms in 16 additional languages. Also known as the International Electrotechnical Vocabulary (IEV) online.

#### IEC Glossary - [std.iec.ch/glossary](http://std.iec.ch/glossary)

67 000 electrotechnical terminology entries in English and French extracted from the Terms and Definitions clause of IEC publications issued since 2002. Some entries have been collected from earlier publications of IEC TC 37, 77, 86 and CISPR.

### A propos de l'IEC

La Commission Electrotechnique Internationale (IEC) est la première organisation mondiale qui élabore et publie des Normes internationales pour tout ce qui a trait à l'électricité, à l'électronique et aux technologies apparentées.

### A propos des publications IEC

Le contenu technique des publications IEC est constamment revu. Veuillez vous assurer que vous possédez l'édition la plus récente, un corrigendum ou amendement peut avoir été publié.

#### Recherche de publications IEC -

[webstore.iec.ch/advsearchform](http://webstore.iec.ch/advsearchform)

La recherche avancée permet de trouver des publications IEC en utilisant différents critères (numéro de référence, texte, comité d'études,...). Elle donne aussi des informations sur les projets et les publications remplacées ou retirées.

#### IEC Just Published - [webstore.iec.ch/justpublished](http://webstore.iec.ch/justpublished)

Restez informé sur les nouvelles publications IEC. Just Published détaille les nouvelles publications parues. Disponible en ligne et une fois par mois par email.

#### Service Clients - [webstore.iec.ch/csc](http://webstore.iec.ch/csc)

Si vous désirez nous donner des commentaires sur cette publication ou si vous avez des questions contactez-nous: [sales@iec.ch](mailto:sales@iec.ch).

#### Electropedia - [www.electropedia.org](http://www.electropedia.org)

Le premier dictionnaire d'électrotechnologie en ligne au monde, avec plus de 22 000 articles terminologiques en anglais et en français, ainsi que les termes équivalents dans 16 langues additionnelles. Egalement appelé Vocabulaire Electrotechnique International (IEV) en ligne.

#### Glossaire IEC - [std.iec.ch/glossary](http://std.iec.ch/glossary)

67 000 entrées terminologiques électrotechniques, en anglais et en français, extraites des articles Termes et Définitions des publications IEC parues depuis 2002. Plus certaines entrées antérieures extraites des publications des CE 37, 77, 86 et CISPR de l'IEC.

## CONTENTS

FOREWORD .....	5
1 Scope .....	7
2 Normative references .....	7
3 Terms and definitions .....	7
4 Preferred ratings and characteristics .....	8
4.1 Preferred climatic categories.....	8
4.1.1 General .....	8
4.1.2 Assisted drying .....	8
4.2 Preferred values of ratings .....	8
4.2.1 Nominal capacitance ( $C_N$ ) .....	8
4.2.2 Tolerance on nominal capacitance .....	8
4.2.3 Nominal capacitance with associated tolerance values .....	9
4.2.4 Rated voltage ( $U_R$ ).....	9
4.2.5 Stability classes in relation to temperature coefficients and change of capacitance .....	9
4.2.6 Category voltage ( $U_C$ ) .....	10
4.2.7 Rated temperature.....	10
5 Test and measurement procedures and performance requirements .....	10
5.1 Visual examination and check of dimensions .....	10
5.1.1 General .....	10
5.1.2 Examination methods .....	10
5.1.3 Requirements .....	10
5.2 Electrical tests .....	11
5.2.1 Voltage proof.....	11
5.2.2 Capacitance .....	11
5.2.3 Tangent of loss angle ( $\tan \delta$ ) .....	12
5.2.4 Insulation resistance.....	12
5.2.5 Characteristics depending on temperature (if required in the detail specification) .....	13
5.2.6 Inductance (if required).....	14
5.2.7 Outer foil determination (if required) .....	14
5.3 Robustness of terminations.....	14
5.3.1 General .....	14
5.3.2 Initial inspections.....	14
5.3.3 Final inspections and requirements.....	14
5.4 Resistance to soldering heat.....	14
5.4.1 General .....	14
5.4.2 Preconditioning.....	14
5.4.3 Test conditions .....	14
5.4.4 Final inspections and requirements.....	15
5.5 Solderability.....	15
5.5.1 General .....	15
5.5.2 Preconditioning.....	15
5.5.3 Test conditions .....	15
5.5.4 Final inspections and requirements.....	15
5.6 Rapid change of temperature .....	15

5.6.1	General .....	15
5.6.2	Initial inspections .....	15
5.6.3	Test conditions .....	16
5.6.4	Final inspections and requirements .....	16
5.7	Vibration .....	16
5.7.1	General .....	16
5.7.2	Initial inspections .....	16
5.7.3	Mounting .....	16
5.7.4	Test conditions .....	16
5.7.5	Final inspections and requirements .....	16
5.8	Bump (repetitive shock) .....	16
5.8.1	General .....	16
5.8.2	Mounting .....	16
5.8.3	Initial measurements .....	17
5.8.4	Test conditions .....	17
5.8.5	Final inspections and requirements .....	17
5.9	Shock .....	17
5.9.1	General .....	17
5.9.2	Mounting .....	17
5.9.3	Initial measurements .....	17
5.9.4	Test conditions .....	17
5.9.5	Final inspections and requirements .....	18
5.10	Climatic sequence .....	18
5.10.1	General .....	18
5.10.2	Initial measurements .....	18
5.10.3	Dry heat .....	18
5.10.4	Damp heat, cyclic, test Db, first cycle .....	18
5.10.5	Cold .....	18
5.10.6	Low air pressure (if required) .....	18
5.10.7	Damp heat, cyclic, Test Db, remaining cycles .....	18
5.10.8	Recovery .....	19
5.10.9	Final inspections and requirements .....	19
5.11	Damp heat, steady state .....	19
5.11.1	General .....	19
5.11.2	Initial inspections .....	19
5.11.3	Test conditions .....	19
5.11.4	Recovery .....	19
5.11.5	Final inspections and requirements .....	19
5.12	Endurance .....	19
5.12.1	General .....	19
5.12.2	Initial inspections .....	19
5.12.3	Test conditions .....	20
5.12.4	Final inspections and requirements .....	20
5.13	Component solvent resistance (if applicable) .....	20
5.14	Solvent resistance of the marking (if applicable) .....	20
6	Marking .....	20
6.1	General .....	20
6.2	Information for marking .....	20
6.3	Marking on capacitors .....	21

6.4	Marking on packaging .....	21
6.5	Additional marking .....	21
7	Information to be given in the detail specification .....	21
7.1	General.....	21
7.2	Outline drawing and dimensions .....	21
7.3	Mounting.....	22
7.4	Ratings and characteristics .....	22
7.4.1	General .....	22
7.4.2	Nominal capacitance range.....	22
7.4.3	Particular characteristics .....	22
7.4.4	Soldering.....	22
7.5	Marking.....	22
8	Quality assessment procedures .....	22
8.1	Primary stage of manufacture .....	22
8.2	Structurally similar components .....	22
8.3	Certified records of released lots .....	23
8.4	Qualification approval .....	23
8.4.1	General .....	23
8.4.2	Qualification approval on the basis of the fixed sample size procedure .....	23
8.5	Quality conformance inspection .....	29
8.5.1	Formation of inspection lots.....	29
8.5.2	Test schedule .....	29
8.5.3	Delayed delivery.....	29
8.5.4	Assessment levels .....	30

## INTERNATIONAL ELECTROTECHNICAL COMMISSION

**FIXED CAPACITORS FOR USE IN ELECTRONIC EQUIPMENT –****Part 13: Sectional specification – Fixed polypropylene  
film dielectric metal foil DC capacitors**

## FOREWORD

- 1) The International Electrotechnical Commission (IEC) is a worldwide organization for standardization comprising all national electrotechnical committees (IEC National Committees). The object of IEC is to promote international co-operation on all questions concerning standardization in the electrical and electronic fields. To this end and in addition to other activities, IEC publishes International Standards, Technical Specifications, Technical Reports, Publicly Available Specifications (PAS) and Guides (hereafter referred to as “IEC Publication(s)”). Their preparation is entrusted to technical committees; any IEC National Committee interested in the subject dealt with may participate in this preparatory work. International, governmental and non-governmental organizations liaising with the IEC also participate in this preparation. IEC collaborates closely with the International Organization for Standardization (ISO) in accordance with conditions determined by agreement between the two organizations.
- 2) The formal decisions or agreements of IEC on technical matters express, as nearly as possible, an international consensus of opinion on the relevant subjects since each technical committee has representation from all interested IEC National Committees.
- 3) IEC Publications have the form of recommendations for international use and are accepted by IEC National Committees in that sense. While all reasonable efforts are made to ensure that the technical content of IEC Publications is accurate, IEC cannot be held responsible for the way in which they are used or for any misinterpretation by any end user.
- 4) In order to promote international uniformity, IEC National Committees undertake to apply IEC Publications transparently to the maximum extent possible in their national and regional publications. Any divergence between any IEC Publication and the corresponding national or regional publication shall be clearly indicated in the latter.
- 5) IEC itself does not provide any attestation of conformity. Independent certification bodies provide conformity assessment services and, in some areas, access to IEC marks of conformity. IEC is not responsible for any services carried out by independent certification bodies.
- 6) All users should ensure that they have the latest edition of this publication.
- 7) No liability shall attach to IEC or its directors, employees, servants or agents including individual experts and members of its technical committees and IEC National Committees for any personal injury, property damage or other damage of any nature whatsoever, whether direct or indirect, or for costs (including legal fees) and expenses arising out of the publication, use of, or reliance upon, this IEC Publication or any other IEC Publications.
- 8) Attention is drawn to the Normative references cited in this publication. Use of the referenced publications is indispensable for the correct application of this publication.
- 9) Attention is drawn to the possibility that some of the elements of this IEC Publication may be the subject of patent rights. IEC shall not be held responsible for identifying any or all such patent rights.

International Standard IEC 60384-13 has been prepared by IEC technical committee 40: Capacitors and resistors for electronic equipment.

This fifth edition cancels and replaces the fourth edition published in 2011. This edition constitutes a technical revision.

This edition includes the following significant technical changes with respect to the previous edition:

- a) revision of all parts of the document based on the ISO/IEC Directives, Part 2:2018, and harmonization with other similar kinds of documents;
- b) the document structure has been organized to follow new sectional specification structure decided in TC 40;
- c) revised tables and Clause 5 so as to prevent duplications and contradictions.

The text of this standard is based on the following documents:

FDIS	Report on voting
40/2751/FDIS	40/2759/RVD

Full information on the voting for the approval of this International Standard can be found in the report on voting indicated in the above table.

This document has been drafted in accordance with the ISO/IEC Directives, Part 2.

The list of all parts of the IEC 60384 series, under the general title *Fixed capacitors for use in electronic equipment*, can be found on the IEC website.

The committee has decided that the contents of this document will remain unchanged until the stability date indicated on the IEC website under "<http://webstore.iec.ch>" in the data related to the specific document. At this date, the document will be

- reconfirmed,
- withdrawn,
- replaced by a revised edition, or
- amended.
