## NORME INTERNATIONALE

**Optical fibre cables –  
Part 3-40: Outdoor cables – Family specification for sewer cables and conduits  
for installation by blowing and/or pulling in non-man accessible storm and  
sanitary sewers**

**Câbles à fibres optiques –  
Partie 3-40: Câbles extérieurs – Spécification de famille pour les câbles en  
égouts et les conduites installés par soufflage et/ou tirage dans les évacuations  
d'eaux sanitaires et pluviales non accessibles par l'homme**

### About the IEC

The International Electrotechnical Commission (IEC) is the leading global organization that prepares and publishes International Standards for all electrical, electronic and related technologies.

### About IEC publications

The technical content of IEC publications is kept under constant review by the IEC. Please make sure that you have the latest edition, a corrigenda or an amendment might have been published.

- Catalogue of IEC publications: [www.iec.ch/searchpub](http://www.iec.ch/searchpub)

The IEC on-line Catalogue enables you to search by a variety of criteria (reference number, text, technical committee,...). It also gives information on projects, withdrawn and replaced publications.

- IEC Just Published: [www.iec.ch/online\\_news/justpub](http://www.iec.ch/online_news/justpub)

Stay up to date on all new IEC publications. Just Published details twice a month all new publications released. Available on-line and also by email.

- Electropedia: [www.electropedia.org](http://www.electropedia.org)

The world's leading online dictionary of electronic and electrical terms containing more than 20 000 terms and definitions in English and French, with equivalent terms in additional languages. Also known as the International Electrotechnical Vocabulary online.

- Customer Service Centre: [www.iec.ch/webstore/custserv](http://www.iec.ch/webstore/custserv)

If you wish to give us your feedback on this publication or need further assistance, please visit the Customer Service Centre FAQ or contact us:

### A propos de la CEI

La Commission Electrotechnique internationale (CEI) est la première organisation mondiale qui élabore et publie des normes internationales pour tout ce qui a trait à l'électricité, à l'électronique et aux technologies apparentées.

### A propos des publications CEI

Le contenu technique des publications de la CEI est constamment revu. Veuillez vous assurer que vous possédez l'édition la plus récente, un corrigendum ou amendement peut avoir été publié.

- Catalogue des publications de la CEI: [www.iec.ch/searchpub/cur\\_fut-f.htm](http://www.iec.ch/searchpub/cur_fut-f.htm)

Le Catalogue en-ligne de la CEI vous permet d'effectuer des recherches en utilisant différents critères (numéro de référence, texte, comité d'études,...). Il donne aussi des informations sur les projets et les publications retirées ou remplacées.

- Just Published CEI: [www.iec.ch/online\\_news/justpub](http://www.iec.ch/online_news/justpub)

Restez informé sur les nouvelles publications de la CEI. Just Published détaille deux fois par mois les nouvelles publications parues. Disponible en-ligne et aussi par email.

- Electropedia: [www.electropedia.org](http://www.electropedia.org)

Le premier dictionnaire en ligne au monde de termes électroniques et électriques. Il contient plus de 20 000 termes et définitions en anglais et en français, ainsi que les termes équivalents dans les langues additionnelles. Egalement appelé Vocabulaire Electrotechnique International en ligne.

- Service Clients: [www.iec.ch/webstore/custserv/custserv\\_entry-f.htm](http://www.iec.ch/webstore/custserv/custserv_entry-f.htm)

## CONTENTS

FOREWORD.....	4
1 Scope.....	6
2 Normative references .....	6
3 Symbols .....	7
4 Family specification for sewer cables and conduits for installation by blowing and/or pulling in sewers (blank detail specification and minimum requirements) .....	8
4.1 Construction.....	8
4.1.1 General .....	8
4.1.2 Conduits.....	8
4.1.3 Sewer cables.....	8
4.1.4 Rodent protection .....	8
4.2 Optical fibres.....	9
4.2.1 Single-mode dispersion unshifted (B1.1) optical fibre.....	9
4.2.2 Single mode dispersion shifted (B2) optical fibre.....	9
4.2.3 Single mode non-zero dispersion (B4) optical fibre.....	10
4.2.4 Single mode (B6) optical fibre.....	10
4.2.5 Multimode fibres.....	10
4.3 Sewer cable constructions.....	11
4.3.1 Cable for installation within conduits (previously fixed to the sewer wall).....	11
4.3.2 Cable for direct installation into the sewer duct.....	12
4.3.3 Conduit construction.....	13
4.4 Installation and operating conditions .....	13
4.4.1 Tests applicable to cables/cable elements.....	13
4.4.2 Installation conditions.....	14
4.5 Mechanical and environmental tests.....	14
4.5.1 Conduits.....	14
4.5.2 Cable for installation within conduits (previously fixed to the sewer wall).....	17
4.5.3 Cables for direct installation into the sewer duct.....	21
Annex A (informative) Blank detail specification.....	25
Annex B (informative) OF cables for non-man accessible sewers.....	28
Annex C (informative) Examples of conduits and sewer cables .....	29
Annex D (informative) Examples of installation schemes.....	35
Figure C.1 – Dielectric optical fibre sewer cable.....	29
Figure C.2 – Dielectric optical fibre sewer cable.....	29
Figure C.3 – Optical fibre sewer cable within a conduit .....	30
Figure C.4 – Optical fibre sewer cable for direct installation – peripheral strength members.....	31
Figure C.5 – Optical fibre sewer cable for direct installation – steel wire armouring .....	31
Figure C.6 – Optical fibre sewer cable for spanning – peripheral strength members.....	32
Figure C.7 – Optical fibre sewer cable for spanning – steel wire armouring.....	32
Figure C.8 – Optical fibre sewer cable for laying – aluminium tape.....	33
Figure C.9 – Optical fibre sewer cable for laying – corrugated steel.....	33

Figure C.10 – Optical fibre sewer cable for laying – 2-layer-steel wire armouring .....	34
Figure D.1 – Conduit robotized installation.....	35
Figure D.2 – Spring loaded stainless-steel ring – conduit fastening.....	36
Figure D.3 – Schematic drawing robotized installation – Drilling.....	36
Figure D.4 – Schematic drawing – Spanning of optical fibre cables within sewers.....	37
Figure D.5 – Schematic drawing – laying on the ground of optical fibre cables within sewers.....	37
Table 1 – Single-mode dispersion unshifted (B1.1) optical fibre .....	9
Table 2 – Single mode dispersion shifted (B2) optical fibre .....	9
Table 3 – Single mode non-zero dispersion (B4) optical fibre.....	10
Table 4 – Single mode (B6) optical fibre .....	10
Table 5 – Characteristics – Cable for installation within conduits (previously fixed to the sewer wall) .....	11
Table 6 – Characteristics – Cable for direct installation into the sewer duct .....	12
Table 7 – Characteristics – Conduit construction .....	13
Table 8 – Tests applicable to cables/cable elements.....	13
Table 9 – Conduits – Tests applicable .....	14
Table 10 – Optical fibre cable – Tests applicable.....	17
Table 11 – Tests applicable .....	21
Table A.1 – Sewer optical fibre cable description – Within conduits .....	25
Table A.2 – Sewer optical fibre description – Direct installation .....	26
Table A.3 – Conduit description .....	27
Table B.1 – Characteristics for optical fibre cables within non-man accessible sewers.....	28

## OPTICAL FIBRE CABLES –

### **Part 3-40: Outdoor cables – Family specification for sewer cables and conduits for installation by blowing and/or pulling in non-man accessible storm and sanitary sewers**

#### FOREWORD

- 1) The International Electrotechnical Commission (IEC) is a worldwide organization for standardization comprising all national electrotechnical committees (IEC National Committees). The object of IEC is to promote international co-operation on all questions concerning standardization in the electrical and electronic fields. To this end and in addition to other activities, IEC publishes International Standards, Technical Specifications, Technical Reports, Publicly Available Specifications (PAS) and Guides (hereafter referred to as “IEC Publication(s)”). Their preparation is entrusted to technical committees; any IEC National Committee interested in the subject dealt with may participate in this preparatory work. International, governmental and non-governmental organizations liaising with the IEC also participate in this preparation. IEC collaborates closely with the International Organization for Standardization (ISO) in accordance with conditions determined by agreement between the two organizations.
- 2) The formal decisions or agreements of IEC on technical matters express, as nearly as possible, an international consensus of opinion on the relevant subjects since each technical committee has representation from all interested IEC National Committees.
- 3) IEC Publications have the form of recommendations for international use and are accepted by IEC National Committees in that sense. While all reasonable efforts are made to ensure that the technical content of IEC Publications is accurate, IEC cannot be held responsible for the way in which they are used or for any misinterpretation by any end user.
- 4) In order to promote international uniformity, IEC National Committees undertake to apply IEC Publications transparently to the maximum extent possible in their national and regional publications. Any divergence between any IEC Publication and the corresponding national or regional publication shall be clearly indicated in the latter.
- 5) IEC provides no marking procedure to indicate its approval and cannot be rendered responsible for any equipment declared to be in conformity with an IEC Publication.
- 6) All users should ensure that they have the latest edition of this publication.
- 7) No liability shall attach to IEC or its directors, employees, servants or agents including individual experts and members of its technical committees and IEC National Committees for any personal injury, property damage or other damage of any nature whatsoever, whether direct or indirect, or for costs (including legal fees) and expenses arising out of the publication, use of, or reliance upon, this IEC Publication or any other IEC Publications.
- 8) Attention is drawn to the Normative references cited in this publication. Use of the referenced publications is indispensable for the correct application of this publication.
- 9) Attention is drawn to the possibility that some of the elements of this IEC Publication may be the subject of patent rights. IEC shall not be held responsible for identifying any or all such patent rights.

International Standard IEC 60794-3-40 Ed. 1 has been prepared by sub-committee 86A: Fibres and cables, of IEC technical committee 86: Fibre optics.

This standard is to be used in conjunction with IEC 60794-1-1, IEC 60794-1-2 and IEC 60794-3.

This bilingual version corresponds to the monolingual English version, published in 2008-10.

The text of this standard is based on the following documents:

FDIS	Report on voting
86A/1228/FDIS	86A/1241/RVD

Full information on the voting for the approval of this standard can be found in the report on voting indicated in the above table.

The French version of this standard has not been voted upon.

This publication has been drafted in accordance with the ISO/IEC Directives, Part 2.

A list of all parts of IEC 60794 series, published under the general title *Optical fibre cables*, can be found on the IEC website.

The committee has decided that the contents of this publication will remain unchanged until the maintenance result date indicated on the IEC web site under "<http://webstore.iec.ch>" in the data related to the specific publication. At this date, the publication will be

- reconfirmed,
- withdrawn,
- replaced by a revised edition, or
- amended.

**IMPORTANT – The 'colour inside' logo on the cover page of this publication indicates that it contains colours which are considered to be useful for the correct understanding of its contents. Users should therefore print this document using a colour printer.**
