About the IEC

The International Electrotechnical Commission (IEC) is the leading global organization that prepares and publishes International Standards for all electrical, electronic and related technologies.

About IEC publications

The technical content of IEC publications is kept under constant review by the IEC. Please make sure that you have the latest edition, a corrigenda or an amendment might have been published.

- Catalogue of IEC publications: www.iec.ch/searchpub

The IEC on-line Catalogue enables you to search by a variety of criteria (reference number, text, technical committee,...). It also gives information on projects, withdrawn and replaced publications.

- IEC Just Published: www.iec.ch/online_news/justpub

Stay up to date on all new IEC publications. Just Published details twice a month all new publications released. Available on-line and also by email.

- Electropedia: www.electropedia.org

The world's leading online dictionary of electronic and electrical terms containing more than 20 000 terms and definitions in English and French, with equivalent terms in additional languages. Also known as the International Electrotechnical Vocabulary online.

CONTENTS

FOREWORD.....	6
1 Scope.....	8
2 Normative references	8
3 Terms, definitions and abbreviations	9
3.1 Definitions	10
3.2 Abbreviations	13
4 Minimum operational and performance requirements.....	13
4.1 General.....	13
4.2 ECDIS definitions	14
4.3 Display of SENC information	14
4.3.1 SENC	14
4.3.2 Warning indication.....	14
4.3.3 Categories of display.....	15
4.3.4 Safety contour	15
4.3.5 Safety depth.....	15
4.3.6 Information content.....	15
4.3.7 Verification and updates	15
4.3.8 Information about chart objects.....	16
4.3.9 Display scale	16
4.4 Provision and updating of chart information.....	16
4.4.1 Contents of the SENC	16
4.4.2 Updates.....	16
4.5 Scale.....	17
4.6 Display of other navigational information	17
4.6.1 Common reference system.....	17
4.6.2 Radar and plotting information.....	17
4.7 Display mode and generation of the neighbouring area	17
4.8 Colours and symbols.....	18
4.9 Display requirements.....	18
4.9.1 Route planning and monitoring	18
4.9.2 Chart presentation size.....	18
4.9.3 Colour and resolution	18
4.9.4 Presentation.....	18
4.9.5 Removal of information categories.....	19
4.10 Route planning, monitoring and voyage recording	19
4.10.1 General	19
4.10.2 Route planning	19
4.10.3 Route monitoring	19
4.10.4 Position integration.....	20
4.10.5 Object information	21
4.10.6 LOP position fix	21
4.10.7 Voyage recording	21
4.11 Calculations and accuracy.....	22
4.12 Connections with other equipment (interfaces)	22
4.13 Performance tests, malfunction alarms and indications.....	23
4.14 Back-up arrangements	23

4.15	Power supply	23
4.16	Software maintenance	24
5	Requirements contained in IHO special publications	24
5.1	Content and structure of chart data	24
5.2	Priority of chart display	24
5.3	Display of chart information	25
5.3.1	Scale and navigation purpose	25
5.3.2	Text	25
5.3.3	Units and legend	26
5.4	Display functions	26
5.4.1	Object information	26
5.4.2	Navigational information	26
5.4.3	Safety contour	27
5.4.4	Navigational calculations	27
5.4.5	Date-dependant ENC objects	27
5.5	Supplementary display functions	28
5.5.1	Additional mariner's information	28
5.5.2	Additional non-HO information	28
5.5.3	Tidal adjustment	28
5.6	Use of the presentation library	29
5.6.1	Presentation library	29
5.6.2	Test diagrams	29
5.7	Display characteristics	29
5.7.1	Display base	29
5.7.2	Navigators notes	29
5.8	Performance requirements	30
5.8.1	Redraw	30
5.8.2	Resolution	30
5.8.3	Symbols	30
5.8.4	Number of colours	30
5.8.5	Brightness and contrast	30
5.9	Ergonomic requirements	31
5.9.1	Mode and orientation	31
5.9.2	Windows	31
5.9.3	Mariner's information panel	31
5.10	Update of chart information	31
5.10.1	General	31
5.10.2	Manual update	32
5.10.3	Semi-automatic update	33
5.10.4	Reception of updates	33
5.10.5	Sequence check	33
5.10.6	Consistency check	34
5.10.7	Geographic applicability	34
5.10.8	Summary report	34
5.10.9	Review of ENC updates	34
5.10.10	Modification of updates	34
6	Methods of testing and required test results	34
6.1	EUT installation, technical documentation, and test requirements	34
6.2	Interfaces	35

6.3	General requirements and presentation requirements.....	35
6.3.1	General requirements	35
6.3.2	Presentation requirements.....	35
6.4	Preparation	36
6.4.1	Power-up.....	36
6.4.2	Initial ship parameters	36
6.4.3	Required test items	36
6.5	Initial data tests.....	36
6.5.1	Presentation library	36
6.5.2	ENC	37
6.5.3	Encrypted ENC.....	37
6.6	Accuracy	38
6.7	Visual requirements.....	38
6.7.1	Symbols	38
6.7.2	Units and legend	38
6.7.3	Colour table.....	39
6.7.4	Resolution	39
6.7.5	Display characteristics.....	39
6.8	Functional requirements	39
6.8.1	Standard display.....	40
6.8.2	Display base.....	40
6.8.3	All other information	40
6.8.4	Display priorities.....	40
6.8.5	Additional display functions	40
6.8.6	Scale and navigation purpose.....	41
6.8.7	Mode and orientation.....	41
6.8.8	Safety contour.....	42
6.8.9	Safety depth.....	42
6.8.10	Object information	42
6.8.11	Navigation related functions	43
6.8.12	Position integration.....	43
6.8.13	Radar and plotting information.....	44
6.8.14	Loading of corrupted data.....	44
6.8.15	Automatic updates.....	45
6.8.16	Manual updates	46
6.8.17	Self-tests of major functions	46
6.9	Operational requirements	47
6.9.1	Ergonomic principles	47
6.9.2	Route planning	47
6.9.3	Route monitoring	48
6.9.4	Twelve-hour log.....	49
6.9.5	Voyage record	49
6.9.6	Power supply.....	50
6.9.7	LOP position fix	50
6.10	Software maintenance	50
	Annex A (normative) SENC information to be displayed during route planning and route monitoring.....	51
	Annex B (normative) Navigational elements and parameters.....	52
	Annex C (normative) Areas for which special conditions exist	53

Annex D (normative) Alarms and indicators	54
Annex E (normative) ENC test data set	55
Annex F (normative) Back-up arrangements	58
Annex G (normative) ECDIS in the RCDS mode of operation	68
Annex H (normative) Alarms and indicators in the RCDS mode of operation	89
Annex I (normative) Scenario definitions and plots	90
Annex J (informative) Test requirements for encrypted ENC	94
Annex K (informative) Guidance for testing	97
Annex L (normative) Testing for colours and intensity	99
Annex M (informative) Elements of an electronic chart database	102
Annex N (informative) Cross-references between IEC 61174 editions and MSC.232(82)	107
Table 1 – Mandatory IEC 61162-1 sentences	23
Table 2 – Area, line and point objects	42
Table L.1 – Ambient light conditions	100

INTERNATIONAL ELECTROTECHNICAL COMMISSION

MARITIME NAVIGATION AND RADIOCOMMUNICATION EQUIPMENT AND SYSTEMS –

Electronic chart display and information system (ECDIS) – Operational and performance requirements, methods of testing and required test results

FOREWORD

- 1) The International Electrotechnical Commission (IEC) is a worldwide organization for standardization comprising all national electrotechnical committees (IEC National Committees). The object of IEC is to promote international co-operation on all questions concerning standardization in the electrical and electronic fields. To this end and in addition to other activities, IEC publishes International Standards, Technical Specifications, Technical Reports, Publicly Available Specifications (PAS) and Guides (hereafter referred to as "IEC Publication(s)"). Their preparation is entrusted to technical committees; any IEC National Committee interested in the subject dealt with may participate in this preparatory work. International, governmental and non-governmental organizations liaising with the IEC also participate in this preparation. IEC collaborates closely with the International Organization for Standardization (ISO) in accordance with conditions determined by agreement between the two organizations.
- 2) The formal decisions or agreements of IEC on technical matters express, as nearly as possible, an international consensus of opinion on the relevant subjects since each technical committee has representation from all interested IEC National Committees.
- 3) IEC Publications have the form of recommendations for international use and are accepted by IEC National Committees in that sense. While all reasonable efforts are made to ensure that the technical content of IEC Publications is accurate, IEC cannot be held responsible for the way in which they are used or for any misinterpretation by any end user.
- 4) In order to promote international uniformity, IEC National Committees undertake to apply IEC Publications transparently to the maximum extent possible in their national and regional publications. Any divergence between any IEC Publication and the corresponding national or regional publication shall be clearly indicated in the latter.
- 5) IEC provides no marking procedure to indicate its approval and cannot be rendered responsible for any equipment declared to be in conformity with an IEC Publication.
- 6) All users should ensure that they have the latest edition of this publication.
- 7) No liability shall attach to IEC or its directors, employees, servants or agents including individual experts and members of its technical committees and IEC National Committees for any personal injury, property damage or other damage of any nature whatsoever, whether direct or indirect, or for costs (including legal fees) and expenses arising out of the publication, use of, or reliance upon, this IEC Publication or any other IEC Publications.
- 8) Attention is drawn to the Normative references cited in this publication. Use of the referenced publications is indispensable for the correct application of this publication.
- 9) Attention is drawn to the possibility that some of the elements of this IEC Publication may be the subject of patent rights. IEC shall not be held responsible for identifying any or all such patent rights.

International Standard IEC 61174 has been prepared by IEC technical committee 80: Maritime navigation and radiocommunication equipment and systems.

This third edition of IEC 61174 cancels and replaces the second edition published in 2001, of which it constitutes a technical revision.

The main changes with respect to the previous edition are listed below:

- this edition incorporates revised performance standards for ECDIS adopted by the IMO as resolution MSC.232(82) in December 2006;
- the test methods have been updated accordingly and new tests added for encrypted ENC data;
