#### About the IEC

The International Electrotechnical Commission (IEC) is the leading global organization that prepares and publishes International Standards for all electrical, electronic and related technologies.

#### About IEC publications

The technical content of IEC publications is kept under constant review by the IEC. Please make sure that you have the latest edition, a corrigenda or an amendment might have been published.

#### IEC Catalogue - [webstore.iec.ch/catalogue](http://webstore.iec.ch/catalogue)

The stand-alone application for consulting the entire bibliographical information on IEC International Standards, Technical Specifications, Technical Reports and other documents. Available for PC, Mac OS, Android Tablets and iPad.

#### IEC publications search - [www.iec.ch/searchpub](http://www.iec.ch/searchpub)

The advanced search enables to find IEC publications by a variety of criteria (reference number, text, technical committee,...). It also gives information on projects, replaced and withdrawn publications.

#### IEC Just Published - [webstore.iec.ch/justpublished](http://webstore.iec.ch/justpublished)

Stay up to date on all new IEC publications. Just Published details all new publications released. Available online and also once a month by email.

#### Electropedia - [www.electropedia.org](http://www.electropedia.org)

The world's leading online dictionary of electronic and electrical terms containing 20 000 terms and definitions in English and French with equivalent terms in 15 additional languages. Also known as the International Electrotechnical Vocabulary (IEV) online.

#### IEC Glossary - [std.iec.ch/glossary](http://std.iec.ch/glossary)

65 000 electrotechnical terminology entries in English and French extracted from the Terms and Definitions clause of IEC publications issued since 2002. Some entries have been collected from earlier publications of IEC TC 37, 77, 86 and CISPR.

#### IEC Customer Service Centre - [webstore.iec.ch/csc](http://webstore.iec.ch/csc)

If you wish to give us your feedback on this publication or need further assistance, please contact the Customer Service Centre: [csc@iec.ch](mailto:csc@iec.ch).

#### A propos de l'IEC

La Commission Electrotechnique Internationale (IEC) est la première organisation mondiale qui élabore et publie des Normes internationales pour tout ce qui a trait à l'électricité, à l'électronique et aux technologies apparentées.

#### A propos des publications IEC

Le contenu technique des publications IEC est constamment revu. Veuillez vous assurer que vous possédez l'édition la plus récente, un corrigendum ou amendement peut avoir été publié.

#### Catalogue IEC - [webstore.iec.ch/catalogue](http://webstore.iec.ch/catalogue)

Application autonome pour consulter tous les renseignements bibliographiques sur les Normes internationales, Spécifications techniques, Rapports techniques et autres documents de l'IEC. Disponible pour PC, Mac OS, tablettes Android et iPad.

#### Recherche de publications IEC - [www.iec.ch/searchpub](http://www.iec.ch/searchpub)

La recherche avancée permet de trouver des publications IEC en utilisant différents critères (numéro de référence, texte, comité d'études,...). Elle donne aussi des informations sur les projets et les publications remplacées ou retirées.

#### IEC Just Published - [webstore.iec.ch/justpublished](http://webstore.iec.ch/justpublished)

Restez informé sur les nouvelles publications IEC. Just Published détaille les nouvelles publications parues. Disponible en ligne et aussi une fois par mois par email.

#### Electropedia - [www.electropedia.org](http://www.electropedia.org)

Le premier dictionnaire en ligne de termes électroniques et électriques. Il contient 20 000 termes et définitions en anglais et en français, ainsi que les termes équivalents dans 15 langues additionnelles. Egalement appelé Vocabulaire Electrotechnique International (IEV) en ligne.

#### Glossaire IEC - [std.iec.ch/glossary](http://std.iec.ch/glossary)

65 000 entrées terminologiques électrotechniques, en anglais et en français, extraites des articles Termes et Définitions des publications IEC parues depuis 2002. Plus certaines entrées antérieures extraites des publications des CE 37, 77, 86 et CISPR de l'IEC.

#### Service Clients - [webstore.iec.ch/csc](http://webstore.iec.ch/csc)

Si vous désirez nous donner des commentaires sur cette publication ou si vous avez des questions contactez-nous: [csc@iec.ch](mailto:csc@iec.ch).

## CONTENTS

FOREWORD.....	7
1 Scope.....	9
2 Normative references .....	9
3 Terms and definitions .....	10
4 General items.....	20
4.1 Units and symbols.....	20
4.2 Preferred values and appropriate category.....	20
4.2.1 General .....	20
4.2.2 Appropriate category .....	20
4.3 Marking.....	20
4.3.1 General .....	20
4.3.2 Marking for small size types such as surface mount thermistors .....	21
4.3.3 Coding.....	21
4.4 Quality assessment procedures .....	21
5 Test and measurement procedures.....	21
5.1 General.....	21
5.2 Standard atmospheric conditions for testing.....	21
5.3 Drying and recovery.....	22
5.3.1 Drying.....	22
5.3.2 Recovery .....	22
5.4 Mounting (for surface mount thermistors only) .....	22
5.4.1 General .....	22
5.4.2 Substrate and pad .....	22
5.4.3 Mounting on board.....	22
5.5 Visual examination and check of dimensions .....	23
5.5.1 Visual examination .....	23
5.5.2 Dimensions.....	24
5.6 Zero-power resistance .....	24
5.6.1 General .....	24
5.6.2 Measurement procedures .....	24
5.6.3 Requirements .....	24
5.7 <i>B</i> -value or resistance ratio .....	25
5.7.1 General .....	25
5.7.2 Requirements .....	25
5.8 Insulation resistance (for insulated types only).....	25
5.8.1 General .....	25
5.8.2 Test methods.....	25
5.8.3 Applied voltage.....	27
5.8.4 Requirements .....	28
5.9 Voltage proof (for insulated types only).....	28
5.9.1 General .....	28
5.9.2 Test voltage.....	28
5.9.3 Requirements .....	28
5.10 Resistance/temperature characteristic .....	28
5.10.1 General .....	28
5.10.2 Test methods.....	28

5.10.3	Requirements .....	28
5.11	Dissipation factor ( $\delta$ ) .....	28
5.11.1	General .....	28
5.11.2	Initial measurements .....	29
5.11.3	Test methods .....	29
5.11.4	Requirements .....	30
5.12	Thermal time constant by ambient temperature change ( $\tau_a$ ) .....	30
5.12.1	The hot to cold thermal time constant for ambient temperature change .....	30
5.12.2	The cold to hot thermal time constant for ambient temperature change .....	31
5.12.3	Final measurements and requirements .....	31
5.12.4	Requirements .....	31
5.13	Thermal time constant by cooling after self-heating ( $\tau_c$ ) .....	31
5.13.1	General .....	31
5.13.2	Initial measurements .....	31
5.13.3	Preconditioning .....	32
5.13.4	Test method .....	32
5.13.5	Final measurements and requirements .....	32
5.14	Robustness of terminations (not applicable to surface mount thermistors) .....	33
5.14.1	General .....	33
5.14.2	Initial measurements .....	33
5.14.3	Test methods .....	33
5.14.4	Test Ua <sub>1</sub> – Tensile .....	33
5.14.5	Test Ub – Bending (half the number of terminations) .....	33
5.14.6	Test Uc – Torsion (remaining terminations) .....	33
5.14.7	Final measurements and requirements .....	34
5.15	Resistance to soldering heat .....	34
5.15.1	General .....	34
5.15.2	Preconditioning .....	34
5.15.3	Test procedure .....	34
5.15.4	Recovery .....	34
5.15.5	Final inspection, measurement and requirements .....	34
5.16	Solderability .....	35
5.16.1	General .....	35
5.16.2	Test procedure .....	35
5.16.3	Final inspection, measurements and requirements .....	35
5.17	Rapid change of temperature .....	35
5.17.1	General .....	35
5.17.2	Initial measurements .....	35
5.17.3	Test procedures .....	35
5.17.4	Final inspection, measurements and requirements .....	36
5.18	Vibration .....	36
5.18.1	General .....	36
5.18.2	Initial measurements .....	36
5.18.3	Test procedures .....	36
5.18.4	Final inspection, measurements and requirements .....	36
5.19	Shock .....	37
5.19.1	General .....	37
5.19.2	Initial measurements .....	37

5.19.3	Mounting .....	37
5.19.4	Test procedures.....	37
5.19.5	Final inspection, measurements and requirements.....	37
5.20	Free fall .....	37
5.20.1	General .....	37
5.20.2	Initial measurements .....	37
5.20.3	Test procedures.....	37
5.20.4	Final inspection, measurements and requirements.....	37
5.21	Thermal shock .....	37
5.21.1	General .....	37
5.21.2	Initial measurements .....	38
5.21.3	Test procedures.....	38
5.21.4	Final inspection, measurements and requirements.....	38
5.22	Cold.....	38
5.22.1	General .....	38
5.22.2	Initial measurements .....	38
5.22.3	Test procedures.....	38
5.22.4	Final inspection, measurements and requirements.....	39
5.23	Dry heat.....	39
5.23.1	General .....	39
5.23.2	Initial measurements .....	39
5.23.3	Test procedures.....	39
5.23.4	Final inspection, measurements and requirements.....	39
5.24	Damp heat, steady state.....	39
5.24.1	General .....	39
5.24.2	Initial measurements .....	40
5.24.3	Test procedures.....	40
5.24.4	Recovery.....	40
5.24.5	Final inspection, measurements and requirements.....	40
5.25	Endurance.....	40
5.25.1	General.....	40
5.25.2	Endurance at room temperature with applied continuous maximum current ( $I_{max25}$ ) (for inrush current-limiting thermistors only).....	40
5.25.3	Endurance at room temperature with applied cyclic maximum current ( $I_{max25}$ ) (for inrush current-limiting thermistors only).....	41
5.25.4	Endurance at $T_3$ and $P_{max}$ .....	42
5.25.5	Endurance at upper category temperature .....	43
5.25.6	Maximum permissible capacitance (for inrush current-limiting thermistors only).....	44
5.26	Shear (adhesion) test (for surface mount thermistors only) .....	45
5.26.1	General .....	45
5.26.2	Test conditions .....	46
5.26.3	Requirements .....	46
5.27	Substrate bending test (for surface mount thermistors only).....	46
5.27.1	General .....	46
5.27.2	Initial measurements .....	46
5.27.3	Test procedures.....	46
5.27.4	Final inspection and requirements .....	46
5.28	Component solvent resistance .....	46
5.28.1	General .....	46

5.28.2	Initial measurements .....	47
5.28.3	Test conditions .....	47
5.28.4	Requirements .....	47
5.29	Solvent resistance of marking .....	47
5.29.1	General .....	47
5.29.2	Test conditions .....	47
5.29.3	Requirements .....	47
5.30	Salt mist .....	47
5.30.1	General .....	47
5.30.2	Test conditions .....	47
5.31	Sealing .....	47
5.32	Composite temperature/humidity cycle .....	48
5.32.1	General .....	48
5.32.2	Initial measurements .....	48
5.32.3	Test conditions .....	48
5.32.4	Final inspection, measurements and requirements .....	48
Annex A (normative) Interpretation of sampling plans and procedures as described in IEC 60410:1973 for use within quality assessment systems .....		49
A.1	Clause and subclause numbers of IEC 60410:1973 .....	49
Annex B (normative) Rules for the preparation of detail specifications for directly heated thermistors for electronic equipment for use within quality assessment systems .....		50
B.1	Drafting .....	50
B.2	Reference standard .....	50
B.3	Circulation .....	50
Annex C (informative) Typical examples of mountings for measurements of directly heated thermistors .....		51
C.1	Mounting for surface mount thermistors .....	51
Annex D (informative) Reference to IEC 60539-1:2008 .....		53
Annex Q (normative) Quality assessment procedures .....		54
Q.1	General .....	54
Q.2	Primary stage of manufacture .....	54
Q.3	Structurally similar components .....	54
Q.4	Qualification approval procedures .....	55
Q.4.1	General .....	55
Q.4.2	Test procedure for qualification approval .....	55
Q.4.3	Maintenance of qualification approval .....	55
Q.5	Quality conformance inspection .....	56
Q.6	Certified test records of released lots .....	56
Q.7	Delayed delivery .....	56
Q.8	Release for delivery under qualification approval before the completion of group B tests .....	56
Q.9	Alternative test methods .....	56
Q.10	Unchecked parameters .....	56

## INTERNATIONAL ELECTROTECHNICAL COMMISSION

**DIRECTLY HEATED NEGATIVE TEMPERATURE  
COEFFICIENT THERMISTORS –****Part 1: Generic specification**

## FOREWORD

- 1) The International Electrotechnical Commission (IEC) is a worldwide organization for standardization comprising all national electrotechnical committees (IEC National Committees). The object of IEC is to promote international co-operation on all questions concerning standardization in the electrical and electronic fields. To this end and in addition to other activities, IEC publishes International Standards, Technical Specifications, Technical Reports, Publicly Available Specifications (PAS) and Guides (hereafter referred to as "IEC Publication(s)"). Their preparation is entrusted to technical committees; any IEC National Committee interested in the subject dealt with may participate in this preparatory work. International, governmental and non-governmental organizations liaising with the IEC also participate in this preparation. IEC collaborates closely with the International Organization for Standardization (ISO) in accordance with conditions determined by agreement between the two organizations.
- 2) The formal decisions or agreements of IEC on technical matters express, as nearly as possible, an international consensus of opinion on the relevant subjects since each technical committee has representation from all interested IEC National Committees.
- 3) IEC Publications have the form of recommendations for international use and are accepted by IEC National Committees in that sense. While all reasonable efforts are made to ensure that the technical content of IEC Publications is accurate, IEC cannot be held responsible for the way in which they are used or for any misinterpretation by any end user.
- 4) In order to promote international uniformity, IEC National Committees undertake to apply IEC Publications transparently to the maximum extent possible in their national and regional publications. Any divergence between any IEC Publication and the corresponding national or regional publication shall be clearly indicated in the latter.
- 5) IEC itself does not provide any attestation of conformity. Independent certification bodies provide conformity assessment services and, in some areas, access to IEC marks of conformity. IEC is not responsible for any services carried out by independent certification bodies.
- 6) All users should ensure that they have the latest edition of this publication.
- 7) No liability shall attach to IEC or its directors, employees, servants or agents including individual experts and members of its technical committees and IEC National Committees for any personal injury, property damage or other damage of any nature whatsoever, whether direct or indirect, or for costs (including legal fees) and expenses arising out of the publication, use of, or reliance upon, this IEC Publication or any other IEC Publications.
- 8) Attention is drawn to the Normative references cited in this publication. Use of the referenced publications is indispensable for the correct application of this publication.
- 9) Attention is drawn to the possibility that some of the elements of this IEC Publication may be the subject of patent rights. IEC shall not be held responsible for identifying any or all such patent rights.

International Standard IEC 60539-1 has been prepared by IEC technical committee 40: Capacitors and resistors for electronic equipment.

This third edition cancels and replaces the second edition published in 2008. This edition constitutes a technical revision. Tables, figures and references have been revised.

The text of this standard is based on the following documents:

FDIS	Report on voting
40/2430/FDIS	40/2457/RVD

Full information on the voting for the approval of this standard can be found in the report on voting indicated in the above table.

This publication has been drafted in accordance with the ISO/IEC Directives, Part 2.

A list of all parts in the IEC 60539 series, published under the general title *Directly heated negative temperature coefficient thermistors*, can be found on the IEC website.

The committee has decided that the contents of this publication will remain unchanged until the stability date indicated on the IEC website under "<http://webstore.iec.ch>" in the data related to the specific publication. At this date, the publication will be

- reconfirmed,
- withdrawn,
- replaced by a revised edition, or
- amended.

The contents of the corrigendum of September 2017 have been included in this copy.
